VILLAGE OF DOWNERS GROVE
Report for the Village Council Meeting
12/10/2019

SUBJECT:	SUBMITTED BY:
Purchase of Replacement Vehicles for 2020	Nan Newlon Director of Public Works

SYNOPSIS

A motion is requested to authorize the purchase of the following replacement vehicles:
• Five 2020 Ford Police Interceptor Utility hybrids from Currie Motors of Frankfort, IL, in the amount of $250,042,
• One Bobcat S740 T4 skid-steer loader from Atlas Bobcat of Elk Grove Village, IL in the amount of $65,923,
• One Stepp SPHD asphalt patching trailer from Bonnell Industries Inc. of Dixon, IL, in the amount of $37,125.50,
• One 2020 Ford Expedition from Kunes Country Ford of Antioch IL, in the total amount of $42,108,
• One 2020 Ford Escape hybrid from Currie Motors of Frankfort, IL, in the amount of $28,518,
• One 2020 Ford F-450 with Sauber Service Body Package, from Currie Motors of Frankfort IL, in the amount of $130,038,
• Four 2021 Peterbilt 348 snow plow trucks from JX Peterbilt of Bolingbrook, IL, in the amount of $787,816.85,
• One 2020 Chrysler Pacifica minivan from National Auto Fleet Group of Watsonville, CA, in the amount of $35,240.

STRATEGIC PLAN ALIGNMENT

The goals for 2019-2021 include *Exceptional Municipal Services*.

FISCAL IMPACT

The FY20 Budget includes $1,437,000 in the Equipment Replacement Fund for these vehicles. The total amount of purchases recommended for 2020 is $1,376,811.35.

UPDATE & RECOMMENDATION

This item was discussed at the December 3, 2019 Village Council Meeting. Staff recommends approval on the December 10, 2019 consent agenda.

BACKGROUND

The 2020 vehicle replacement schedule provides for the replacement of 15 vehicles.

Quantity	Type of Vehicle	Make and Model	Dealer	Price each
5	Utility	2020 Ford Police Interceptor Utility hybrid	Currie Motors	$50,772.00 $49,216.00 $49,216.00 $50,303.00 $50,535.00

1	Asphalt Patching Trailer	Stepp SPHD	Bonnell Industries	$37,125.50
1	Utility	2020 Ford Expedition	Kunes Country Ford	$42,108.00
1	Utility	2020 Ford Escape Hybrid	Currie Motors	$28,518.00
1	Service Truck	2020 Ford F-450	Currie Motors	$130,038.00
4	Snow Plow Truck	2021 Peterbilt 348	JX Peterbilt	$198,908.25 $198,908.25 $198,908.25 $191,092.10
1	Minivan	2020 Chrysler Pacifica	National Auto Fleet Group	$35,240.00

The Village's Fleet Team, consisting of representatives from the Village Manager's Office, Finance, Public Works, Police and Fire Departments evaluated the need to replace these vehicles. All Village vehicles and equipment are targeted for replacement according to useful lifecycle replacement criteria. These criteria include age, usage, condition, repair costs, fuel efficiency and environmental impact. The Fleet Team reviewed the vehicles scheduled to be replaced and determined that the criteria for replacement were met.

Police Vehicles

A typical patrol car has a planned useful life of 6 years depending on use. For 2020, six police vehicles are scheduled for replacement, five that are used by Patrol and one by Community Service Officers. The Patrol Officers are currently driving Chevy Tahoes and the recommended replacement vehicle is a Ford hybrid electric utility. The 2020 Police Interceptor Utility Hybrid delivers an estimated 41% improvement in fuel economy over the current Police Interceptor Utility. According to the manufacturer, projections indicate the hybrid could help save between $3,500 and $5,700 per vehicle annually in fuel costs. Hybrid technology is ideal for law enforcement because of the potentially significant idle-time fuel savings. When police vehicles are stationary, a conventional gasoline engine must run continuously to power emergency lighting, radios, computers and other on-board electrical equipment. The hybrid powertrain of the Police Interceptor Utility allows the engine to shut off for extended periods, powering electrical equipment via its lithium-ion battery and helping achieve significant reductions in fuel usage and CO_2 emissions over the previous generation Police Interceptor Utility. Similar benefits and results are expected from the Ford Escape hybrid for the

Community Service Officers. The recommended vehicles meet the operational needs of the department and support the Village's goal to operate a greener fleet. The following table provides additional information regarding the existing police vehicles scheduled to be replaced:

Veh. #	Year	Make	Model	Miles (Nov 2019)	2018-19 Repairs / Maintenance Costs (24 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2018-19
805	2013	Chevy	Tahoe	129,587	$4,332.30	$25,713	17%
806	2014	Chevy	Tahoe	92,770	$7,778	$14,954	52%
807	2014	Chevy	Tahoe	88,828	$7,235	$16,132	45%
810	2014	Chevy	Tahoe	90,271	$6,694	$16,109	42%
821	2007	Chevy	Impala	102,660	$2,868	$12,939	22%
880	2012	Chevy	Tahoe	92,832	$5,780	$20,932	28%

Fire Vehicles:

Fire Training Vehicle

The current Fire training vehicle is an eight year old Chevy Tahoe that is used by the Battalion Chief of Training/Safety. This vehicle is recommended to be placed into reserve status, and a 2005 Ford Explorer is recommended to be sold. The recommended vehicle is a Ford Expedition utility, which will accommodate the gear needed for fire training and safety. The following table provides additional information regarding the vehicle scheduled to be replaced, and the vehicle that will be removed from front line service and put into reserve status:

Veh. #	Year	Make	Model	Miles (Nov 2019)	2018-19 Repairs / Maintenance Costs (24 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2018-19
943	2011	Chevrolet	Tahoe	120,489	$4,366	$23,283	18.75%
923	2005	Ford	Explorer	80,090	$2,062	$27,053	7.60%

Public Education Vehicle

The Village operates one vehicle in support of the Fire Department Community Education program. The current vehicle is 13 years old and has reached the end of its useful life. The hood, doors, quarter panels, front fenders and rocker panels are all rusting. This vehicle has been deferred for replacement since 2014. The Fleet and Fire Department worked together to find the optimal replacement vehicle and identified the recommended vehicle which offers the space needed to accommodate gear, while being affordable. The following table provides additional information regarding the vehicle scheduled to be replaced.

Veh. #	Year	Make	Model	Miles (Nov 2019)	2018-19 Repairs / Maintenance Costs (24 mo.)	Life-to-Date Repairs / Maintenance	Repairs / Maintenance Cost % in

						Costs	2018-19
931	2006	Dodge	Caravan	37,673	$1,182	$13,078	9.04%

Public Works Vehicles:

Skid Steer Loader

The Village operates two skid steer loaders that are used for multiple purposes in Public Works. A skid steer loader is a rigid frame, engine-powered machine with lift arms used to attach a wide variety of labor-saving tools or attachments like an auger, forks, sweeper, backhoe, bucket grapple, breaker, and pallet fork, for instance. The current piece of equipment (057) has had multiple hydraulic repairs, is heavily used, and has reached the end of its useful life due to wear and age. The recommended skid steer will be fueled by B20 biodiesel. This is in line with the Villages effort to create a greener fleet.

Asphalt Trailer

The asphalt trailer (063) is used to transport asphalt to work sites throughout the Village and to complete pothole patching in the winter. The trailer is designed to maintain the temperature of asphalt and keep it workable regardless of the time of year. The body of the current asphalt trailer has been repaired multiple times and has severe corrosion.

Snow Plow Trucks

The Village operates 13, 5 and 10-ton trucks used for front-line snow response. The current vehicles (208, 231, 232 and 233) are 16 years old and have reached the end of their useful life. The hydraulic controls on the trucks are obsolete, making it difficult to obtain service and repair parts. The trucks have also experienced a decline in engine performance and have corrosion issues that would warrant significant structural repairs if they were to remain in service. The recommended vehicles will standardize hydraulic controls and snow plow hitches. Standardization within the Village's fleet allows for a cost effective approach to routine and emergency maintenance by adding value in business operations, specifically in areas involving inventory management and training of internal personnel. The recommended vehicles will be fueled by B20 biodiesel.

1-Ton Service Truck

The vehicle proposed for replacement (210) is a 13 year old Ford F-450 with an enclosed service body that is used in the maintenance of the Village's water system infrastructure. This truck is equipped with the tools and equipment needed by staff to complete fire hydrant repairs, water main break repairs and valve replacements. The current vehicle has experienced engine problems and the body is rusting. The recommended replacement vehicle, which will be fueled by B20 biodiesel, will provide compressed air, hydraulic tools and electricity for field staff completing water system repairs and maintenance.

Veh. #	Year	Make	Model	Hours (Nov 2019)	2018-19 Repairs / Maintenance Costs (24 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2018-19
057	2007	New Holland	L185	1,113	$7,033	$38,577	18.23%

063	2008	Falcon	Trailer	N/A	$4,712	$23,694	19.89%
208	2004	Freightliner	M2	8,347	$19,130	$195,104	9.81%
210	2006	Ford	F-450	6,627	$5,886	$46,302	12.71%
231	2004	Freightliner	M2	6,388	$22,703	$141,566	16.04%
232	2004	Freightliner	M2	7,668	$27,289	$271,956	10.03%
233	2004	Freightliner	M2	7,705	$27,134	$193,254	14.04%

These purchases are recommended to be made through cooperative purchasing contracts in accordance with the provisions of the Village Purchasing Policy. The Ford Police Interceptor Utility Hybrids, Ford Expedition, Ford Escape Hybrid and Ford F-450 would be purchased through the Northwest Municipal Council's Suburban Purchasing Cooperative. Pricing for the Peterbilt 348's, Bobcat and Pacifica minivan is provided through the Sourcewell Cooperative Purchasing Program for governmental entities (formerly NJPA.) Pricing for the Stepp asphalt patching trailer is provided by the Houston-Galveston Area Council (HGAC) cooperative purchasing program.

Vehicle Dimension and Performance Summary

Performance predictions in this report represent an estimate of vehicle performance based on standard operating conditions. Variations in customer equipment, load configuration, ambient conditions, and/or operator driving techniques can cause significant variations in vehicle performance. These values are not representative of results that may be shown in actual dynamometer tests. This report should therefore be used as a guide for comparative vehicle performance.

Base Model			
0003481	S	**Model 348** The Model 348 was designed to exceed the rigid demands of Class 7 and Class 8 specialty application markets that require rugged durability and a wide range of optional content. The Model 348 represents a multi-dimensional performer with a GVW from 33,000 to 66,000 lbs. and optional capacity ratings to suit almost any vocation. The 348 is also available in a specifically designed all-wheel-drive configuration. From construction and crane service to utility and delivery services in both Class 7 and Class 8 markets, the 348 is in a class by itself.	10,610

Base Model			
0003481	S	**Model 348** The Model 348 was designed to exceed the rigid demands of Class 7 and Class 8 specialty application markets that require rugged durability and a wide range of optional content. The Model 348 represents a multi-dimensional performer with a GVW from 33,000 to 66,000 lbs. and optional capacity ratings to suit almost any vocation. The 348 is also available in a specifically designed all-wheel-drive configuration. From construction and crane service to utility and delivery services in both Class 7 and Class 8 markets, the 348 is in a class by itself.	10,610
