

**VILLAGE OF DOWNERS GROVE**  
**REPORT FOR THE VILLAGE COUNCIL WORKSHOP**  
**NOVEMBER 27, 2007 AGENDA**

SUBJECT:	TYPE:	SUBMITTED BY:
Purchase of Telemetry System for Outdoor Warning Sirens	Resolution Ordinance ✓ Motion Discussion Only	Robert Porter Chief of Police

**SYNOPSIS**

A motion has been prepared to approve the proposal from Fulton Technologies, of Roselle, Illinois, to install tornado siren telemetry units and sensors on the Village's outdoor warning sirens.

**STRATEGIC PLAN ALIGNMENT**

The Five Year Plan and Goals for 2006-2011 identified *Exceptional Municipal Organization* with the supporting objective of *Top Quality Core Services Responsive to Current and Future Community and Citizen Needs*.

**FISCAL IMPACT**

The FY07 General Fund Budget allocates \$30,000 for this purchase. The actual cost is \$33,100, and the additional funds will be taken from other budgetary savings.

**RECOMMENDATION**

Approval on the December 4, 2007 consent agenda.

**BACKGROUND**

The Village is seeking to upgrade the technology associated with the outdoor tornado sirens. Prior to siren telemetry, sirens were typically activated by one-way radio signals. Verification of the actual siren operation was accomplished by having someone stand by each siren to determine whether it was working or not. These sirens are tested once a month; however, no one actually knows if a malfunction has occurred with the siren in between tests. Current technology allows the monitoring and testing of sirens on a 24-hour basis. Any loss of power or malfunction is immediately reported to the municipality. Another benefit to this telemetry system is that it allows for quiet testing. This is accomplished through a system quiet test where a signal activates the siren for tenths of seconds, which is long enough for the sirens sensors to verify its operation. This information is reported and logged into a central computer.

An official RFP process was conducted and Fulton Technologies was the only company to submit a proposal. The proposed quote to install the systems telemetry units and sensors was for \$33,100.00.

**26. TERMINATION OF CONTRACT**

- 26.1 The Village reserves the right to terminate the whole or any part of this contract, upon written notice to the Awarded Proposer, for any reason and/or in the event that sufficient funds to complete the contract are not appropriated by the Village.
- 26.2 The Village further reserves the right to terminate the whole or any part of this contract, upon ten (10) days' written notice to the Awarded Proposer, in the event of default by the Awarded Proposer. Default is defined as failure of the Awarded Proposer to perform any of the provisions of this contract or failure to make sufficient progress so as to endanger performance of this contract in accordance with its terms. In the event that the Awarded Proposer fails to cure the default upon notice, and the Village declares default and termination, the Village may procure, upon such terms and in such manner as the Village may deem appropriate, supplies or services similar to those so terminated. The Awarded Proposer shall be liable for any excess costs for such similar supplies or services unless

acceptable evidence is submitted to the Village that failure to perform the contract was due to causes beyond the control and without the fault or negligence of the Awarded Proposer. Any such excess costs incurred by the Village may be set-off against any monies due and owing by the Village to the Awarded Proposer.

**27. BILLING & PAYMENT PROCEDURES**

- 27.1 Payment will be made upon receipt of an invoice referencing Village purchase order number. Once an invoice and receipt of materials or service have been verified, the invoice will be processed for payment in accordance with the Village payment schedule. The Village will comply with the Local Government Prompt Payment Act, 50 ILCS 505/1 et seq., in that any bill approved for payment must be paid or the payment issued to the Proposer within 60 days of receipt of a proper bill or invoice. If payment is not issued to the Proposer within this 60 day period, an interest penalty of 1.0% of any amount approved and unpaid shall be added for each month or fraction thereof after the end of this 60 day period, until final payment is made.
- 27.2 The Village shall review in a timely manner each bill or invoice after its receipt. If the Village determines that the bill or invoice contains a defect making it unable to process the payment request, the Village shall notify the Proposer requesting payment as soon as possible after discovering the defect pursuant to rules promulgated under 50 ILCS 505/1 et seq. The notice shall identify the defect and any additional information necessary to correct the defect.
- 27.3 If this contract is for work defined as a "fixed public work" project under the Illinois Prevailing Wage Act, 820 ILCS 130/2, any contractor or subcontractor is required to submit certified payroll records along with the invoice. No invoice shall be paid without said records.
- 27.4 Please send all invoices to the attention of Village of Downers Grove, Accounts Payable, 801 Burlington, Downers Grove, IL 60515.

**29. STANDARD OF CARE**

- 29.1. Services performed by Proposer under this Agreement will be conducted in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other representations express or implied, and no warranty or guarantee is included or intended in this Agreement, or in any report, opinions, and documents or otherwise.
- 29.2 If the Proposer fails to meet the foregoing standard, Proposer will perform at its own cost, and without reimbursement from the Village, the professional services necessary to

correct errors and omissions caused by Proposer's failure to comply with the above standard and reported to Proposer within one (1) year from the completion of Proposer's services for the Project.

- 29.3 For Professional Service Agreements (i.e. Engineer, Consultant): Project site visits by Proposer during construction or equipment installation or the furnishing of Project representatives shall not make Proposer responsible for: (i) constructions means, methods, techniques, sequences or procedures; (ii) for construction safety precautions or programs; or (iii) for any construction contractor(s') failure to perform its work in accordance with contract documents.

**30. GOVERNING LAW**

- 30.1 This Agreement will be governed by and construed in accordance with the laws of the State of Illinois without regard for the conflict of laws provisions. Venue is proper only in the County of DuPage and the Northern District of Illinois.

**31. SUCCESSORS AND ASSIGNS**

- 31.1 The terms of this Agreement will be binding upon and inure to the benefit of the parties and their respective successors and assigns; provided, however, that neither party will assign this Agreement in whole or in part without the prior written approval of the other. The Proposer will provide a list of key staff, titles, responsibilities, and contact information to include all expected sub Proposers.

**32. WAIVER OF CONTRACT BREACH**

- 32.1 The waiver by one party of any breach of this Agreement or the failure of one party to enforce at any time, or for any period of time, any of the provisions hereof will be limited to the particular instance and will not operate or be deemed to waive any future breaches of this Agreement and will not be construed to be a waiver of any provision except for the particular instance.

**36. NOTICE**

- 36.1 Any notice will be in writing and will be deemed to be effectively served when deposited in the mail with sufficient first class postage affixed, and addressed to the party at the party's place of business. Notices shall be addressed to the Village as follows:

### **III. DETAIL SPECIFICATIONS**

#### **TORNADO SIREN**

- 1 The contractor shall provide for the replacement of the radio controllers used for activation of the seven (7) outdoor warning sirens. The existing DTMF/VHF radio controllers will be removed and replaced with intelligent 2-way Remote Terminal Units (RTU) Telemetry Controllers. The controllers must be compatible with the Fulton Technologies Central Control System or similar system for 24/7 offsite monitoring and operate on existing data frequency.
2. The contractor shall provide all necessary labor, materials, and services required for obtaining, installing, and testing RTU Telemetry Controllers at each existing warning siren located in the village.
3. RTU Telemetry Controller:

The RTU Telemetry Controller shall include a RTU controller, data radio, antenna system, monitoring sensors, power supply and backup battery in a weatherproof enclosure. The control system will interface to the existing siren with the appropriate sensors to provide status indication of all motors(s), AC Power, Intrusion, and Battery status. The RTU Telemetry Controller shall meet or exceed the following minimum specifications:

- Fulton Technologies System 4000 RTU or similar with 8 - digital inputs, 8 - 10A relay outputs, 8 channels of analog inputs and a 1200 baud FSK digital data interface with encryption and time stamping capabilities for security.
- Tait TM8100 25W Data Radio with RTU interface cable.
- 5A Power supply capable of accepting 110 to 240 VAC, 50 to 60 Hz.

The central computer should be able to activate the sirens from its keyboard or from a remote button.

#### 5. Quiet Testing Ability

The system shall include the ability to quiet test the sirens. This involves activating the sirens for tenths of a second in order for the sirens' RTU to verify operation, but a short enough time that does not disturb the public. This test will provide the central computer with valuable information on each siren's status including loss of AC power, intrusion, and loss of communication.

All Work needs to be completed before December 31, 2007.

Lt. Bill Budds  
Downers Grove Police Department  
801 Burlington  
Downers Grove, IL 60515

**Re: Downers Grove Tornado Siren Telemetry Proposal**

Dear Lt. Budds:

We are pleased to provide a proposal to Downers Grove Police Department for the supply and installation of System 4000 Telemetry Siren Controllers. These intelligent 2-way RTU controllers will replace your existing DTMF/VHF radio controllers that currently activate your outdoor warning siren system. This proposal also includes a System 4000 Siren Encoder computer station that will activate your siren system and includes standard installation.

I have included information on the System 4000 Telemetry system for your review. The System 4000 telemetry system is on a dedicated siren frequency and uses encrypted time-stamped digital data transmissions for reliable communications between the encoder and sirens. The system is monitored by Fulton Technologies and tested every business day. Reports are sent every Monday and the first Tuesday of the month to inform you of the siren status.

System 4000 telemetry units and sensors will be added to each siren for \$3,900.00 each. A System 4000 Encoder to activate the units will cost \$5,800.00 installed. The total cost for seven sirens and one siren encoder would be \$33,100.00. The annual monitoring fee for Fulton Technologies to monitor and test your siren system will be \$360.00 for the first year.

Should you have any questions, or require further information, please contact me.

Sincerely,  
FULTON TECHNOLOGIES INC.
