## VILLAGE OF DOWNERS GROVE REPORT FOR THE VILLAGE COUNCIL WORKSHOP FEBRUARY 12, 2008 AGENDA

SUBJECT:	TYPE:		SUBMITTED BY:
		Resolution	
		Ordinance	
Approval of Scope of FY08	$\checkmark$	Motion	Robin A. Weaver
Capital Projects		<b>Discussion Only</b>	Interim Director of Public Works

## SYNOPSIS

A motion is requested to approve the scopes of eight capital projects scheduled to be designed in 2008.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*. An associated objective is *Improved Neighborhood Infrastructure*.

## FISCAL IMPACT

The FY08 budget for these eight major capital projects is \$3,597,997. This work, as outlined in the attached scopes, will adhere to the Village's FY08 Community Investment Program as approved by the Village Council.

#### RECOMMENDATION

Approval on the February 19, 2008 consent agenda.

#### BACKGROUND

The Village Council approved the 2008 Community Investment Program (CIP). This program identifies and prioritizes major capital projects to be constructed within the Village. There are eight "major" capital projects budgeted for design or design and construction in 2008. The selection of these projects for resident input and scope review was based on three criteria: project cost, neighborhood impact and engineering design/construction schedule.

The following is the list of the eight projects:

- Ogden Aveenue Sidewalks and Curb Cut Reduction
- Sidewalk Replacement Program
- Reconstruction of Inverness Avenue, from Ashbrook to Belmont
- Rogers Street Resurfacing (Main to Fairview)
- Bikeway Plan Phase 1
- Bikeway Plan Phase 2
- Watermain Replacement at Maple & 55<sup>th</sup>
- Watermain Replacement at Gierz & Wilson and Austin

In an effort to provide Village residents with valuable information pertaining to projects occurring in their area, Village staff held a *2008 Community Investment Program Scope and Design Open House* on January 29, 2008, at the Public Works facility. During this open house, residents had the opportunity to obtain information on each project from staff engineers and also to make any comments. Notices for this meeting were mailed to individuals residing within 250 feet of each major capital project. Approximately 4,500 informational postcards were mailed out to residents in preparation for the open house, with between 25 to 30 residents attending the event. Additionally, ten residents called or e-mailed the Interim Director to ask questions, add information or recommend changes.

The scopes of the eight major capital projects scheduled for work in 2008 can be found in the Village's 2008 CIP document. The project summaries and CIP sheets for each of the projects have been attached. They are also accessible on the Village's website within a new section under the Government page entitled "Infrastructure Projects."

# VILLAGE OF DOWNERS GROVE 2008 COMMUNITY INVESTMENT PROGRAM – SCOPE AND DESIGN MEETINGS JANUARY 29, 2008 7:00 P.M. PUBLIC WORKS FACILITY

SUBJECT:	SUBMITTED BY:
	Mike D. Millette
S-005: Ogden Avenue Sidewalks/Curb Cut Reduction	Assistant Director of Public Works

## **S**YNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies Top Quality Village Infrastructure and Facilities. An objective is Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks.

#### **PROJECT DESCRIPTION**

Ogden Avenue Sidewalks/ Curb Cut Reduction

#### LOCATION

Work will take place along Ogden Avenue, from Walnut Street to Williams Street.

#### ISSUE

An STP grant was awarded to the Village of Downers Grove to complete sidewalks along Ogden Avenue. New sidewalks will result in greater pedestrian connectivity along Ogden Avenue.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

## SCOPE

The work will include:

- Land acquisition
- Construction/Periodic replacement

The project will result in completed sidewalks along Ogden Avenue in an effort to improve pedestrian connectivity. Work may impact residents and commercial businesses in a variety of ways including: limited driveway access of short duration, lane closures and limited tree removal. The projected cost of the 2008 project is \$1,640,000.

#### TIMEFRAME

Design work started in 2005. Plans are complete. Land acquisition should commence in late 2007 and could take up to 18 months; therefore construction is scheduled to start in fall 2008.

# VILLAGE OF DOWNERS GROVE 2008 COMMUNITY INVESTMENT PROGRAM – SCOPE AND DESIGN MEETINGS JANUARY 29, 2008 7:00 P.M. PUBLIC WORKS FACILITY

SUBJECT:	SUBMITTED BY:
	Mike Millette
S-006: Replacement Sidewalk Program	Assistant Director of Public Works

#### **S**YNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies Top Quality Village Infrastructure and Facilities. An objective is Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks.

#### **PROJECT DESCRIPTION**

Sidewalk replacement

#### LOCATION

Throughout Village

#### ISSUE

Some of the sidewalks in Downers Grove have a grade difference of 1-1/8' or more as well as cracks. In order to get rid of the tripping hazard, the Village needs to replace or repair the sidewalks. Repaired sidewalks will reduce liability costs.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

#### SCOPE

The work will include:

• Replacement and repair of Village sidewalks

Project will reduce the number of trip hazards associated with aged and cracking sidewalks located throughout the Village. This project will impact area residents through short-term periods of limited driveway access and short duration lane closures in sidewalk replacement areas. The projected cost of the 2008 project is \$125,000.

## TIMEFRAME

Construction will commence in spring and is anticipated to be completed in June.

# VILLAGE OF DOWNERS GROVE 2008 COMMUNITY INVESTMENT PROGRAM – SCOPE AND DESIGN MEETINGS JANUARY 29, 2008 7:00 P.M. PUBLIC WORKS FACILITY

SUBJECT:	SUBMITTED BY:
	Mike Millette
ST-003: Inverness Avenue, Ashbrook to Belmont	Assistant Director of Public Works

## SYNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies Top Quality Village Infrastructure and Facilities. An objective is Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks.

#### **PROJECT DESCRIPTION**

Roadway reconstruction and sidewalk installation.

#### LOCATION

Inverness Avenue, from Ashbrook Place to Belmont Road.

#### ISSUE

A portion of Inverness Avenue, from Ashbrook Place to Belmont Road, requires reconstruction. A component of the sidewalk matrix will be bid with this project.

Only design engineering for the project will take place in 2008.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

## SCOPE

The work will include:

• Design engineering

Project will improve the quality of roadway on Inverness Avenue, between Ashbrook Place and Belmont Road.

Design engineering only will take place in 2008. Hence, there will be no project impact on area residents during 2008. The projected cost of the 2008 project is \$25,000.

#### TIMEFRAME

Design will start in 2008 with construction scheduled for 2009.

# VILLAGE OF DOWNERS GROVE REPORT FOR THE STORMWATER AND FLOODPLAIN OVERSIGHT COMMITTEE JANUARY 29, 2008 7:00 P.M. PUBLIC WORKS FACILITY

SUBJECT:	SUBMITTED BY:
	Mike Millette
ST-023: Rogers Street Resurfacing (Main – Fairview)	Assistant Director of Public Works

## **S**YNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*. An objective is *Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks*.

## **PROJECT DESCRIPTION**

Street resurfacing

## LOCATION

Rogers Street, from Main Street to Fairview Avenue.

Only design engineering for the project is scheduled for 2008.

#### ISSUE

This includes the resurfacing of Rogers Street from Main Street to Fairview Avenue. An application for a Local Agency Pavement Preservation (LAPP) grant has been made to the DuPage Mayor's and Manager's conference for the project.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

#### SCOPE

The work will include:

• Design engineering

This project will result in the resurfacing of Rogers Street, from Main Street to Fairview Avenue. Only design engineering is scheduled for 2008. Therefore, residents will not be impacted by the project in 2008. The projected cost of the 2008 project is \$35,000.

SUBJECT:	SUBMITTED BY:
BW-002: Bikeway Plan Phase 1 – Central Corridor Bikeway	Mike Millette Assistant Director of Public Works

## SYNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## **STRATEGIC PLAN ALIGNMENT**

The Village's Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*. An objective is *Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks*.

## **PROJECT DESCRIPTION**

Bikeway path construction

## LOCATION

The northern border of the North-South Central Corridor Bikeway begins at 31<sup>st</sup> Street, and runs south on Saratoga Avenue to Doerhoeffer Park. The path then will run through Doerhoeffer Park and the private access road of the American Legion property to connect to the continuation of Saratoga Avenue to the south. The bike path will then continue south on Saratoga, crossing Ogden Avenue at the traffic signal, and on to Warren Avenue, where it then runs east on Warren to Forest Avenue where it then turns south, crossing the Metra tracks at Gilbert Avenue. The bikeway then turns west to Carpenter Street to Maple Avenue, and then follows Maple Avenue to Dunham Road. The route follows Dunham Road until it reaches the traffic signal located at Dunham and Lemont Road.

#### ISSUE

This Central Corridor Bikeway project consists of approximately 14.3 miles of affected roadways. Only a small portion of this length will actually contain on-street bike lanes; most of the Village bikeways in this first construction phase will be on-street bike routes to be shared with the motoring traffic. Supplemental bike signage is included in the project to alert bike riders of the existence of the routes and to also direct users to various destinations within the Village.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

# SCOPE

The work will include:

- Bikeway path construction
- Roadway striping
- Signage

# OUTCOME

This project will result in the construction of 14.3 miles of on-street bikeway path and one block of offstreet bikeway path.

This project will have minimal impact on area residents as work is limited mainly to roadway striping and signage. The projected cost of the 2008 project is \$94,000.

# TIMEFRAME

Work is anticipated to begin in late spring and will last for approximately two months.

## **S**YNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*. An objective is *Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks*.

## **PROJECT DESCRIPTION**

Bikeway path construction

## LOCATION

This project concentrates on the expansion of the east-west section of the Central Corridor Bikeway, including additional work on Grant Street, Jefferson Street, 59<sup>th</sup> Street, and 67<sup>th</sup> Street at McCollum Park. In addition, a portion of the Eastern North-South Corridor along Fairmount Avenue is proposed for the project. Work will also be conducted at Lacey Road. Off-street construction would include the installation of gap areas of two segments on Grant Street, the segment at Downers Grove North High School and the Segment through McCollum Park.

#### ISSUE

This bikeway project expands upon the Central Corridor Bikeway. Design engineering is scheduled for 2008, with construction scheduled for 2009.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

#### SCOPE

The work will include:

• Design engineering

This project will result in the construction of 4.2 miles of on-street bikeway path and 0.5 miles of offstreet bikeway path. The projected cost of the 2008 project is \$18,000.

## TIMEFRAME

Not applicable, design engineering only. No impact on area residents in 2008.

WA-006: Watermain Replacement, Maple Avenue and 55 <sup>th</sup> Street	Assistant Director of Public Works

## **S**YNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*. An objective is *Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks*.

## **PROJECT DESCRIPTION**

Watermain replacement.

#### LOCATION

Work will take place at Maple Avenue and 55<sup>th</sup> Street.

#### ISSUE

This project will replace the majority of the feeder main on Maple Avenue and 55<sup>th</sup> Street between Plymouth and Fairview.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

#### SCOPE

The work will include:

• Feeder main replacement

#### OUTCOME

This work is necessary due to the number of watermain breaks which have been experienced along this line.

This project will result in long-term (greater than one month) lane closures on Maple Avenue and 55<sup>th</sup> Street between Plymouth and Fairview. Residents may also experience periodic driveway closures and

temporary water service interruption as the watermain is replaced. The projected cost of the 2008 project is \$1,700,000.

## TIMEFRAME

Construction will begin upon issuance of a permit by DuPage County (which has been pending since July, 2007). Total construction duration will be approximately four months.

WA-013: Watermain Replacement, Gierz Street, Austin Street & Wilson Street	Mike Millette Assistant Director of Public Works			

## **S**YNOPSIS

The overarching purpose of this meeting is to provide the public with valuable information pertaining to a major capital project associated with the Village of Downers Grove's Community Investment Program for FY08.

## STRATEGIC PLAN ALIGNMENT

The Village's Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*. An objective is *Improved Neighborhood Infrastructure Curbs, Gutters, Streets, and Sidewalks*.

## **PROJECT DESCRIPTION**

Watermain replacement

## LOCATION

Gierz Street, Austin Street and Wilson Street, between Fairview Avenue and Linden Place.

#### ISSUE

This project is required due to the age of the pipe and the small size of the pipe at the location.

Only design engineering for the project is scheduled to take place in 2008.

#### BACKGROUND

The Village's Community Investment Program provides a summary of all major capital projects planned over the next five years, including a specific description and cost summary for each project. This report summarizes a specific capital project scheduled for work in FY08. Staff requests that the scope of this project be thoroughly reviewed. During this process, input from area residents will be heard regarding any potential impact the presented project may have on the community. These public concerns will then be incorporated into the final design of the project.

#### SCOPE

The work will include:

• Watermain replacement

#### OUTCOME

This project will result in the replacement of an existing 4" watermain with an 8" watermain at Gierz Street, Wilson Street, and Austin Street between Fairview Avenue and Linden Place.

Only design engineering for the project will take place in 2008. Thus, there will be no project impact on area residents during 2008. The projected cost of the 2008 project is \$50,000.

## TIMEFRAME

Not applicable, design engineering only.
