FISCAL IMPACT

N/A.

RECOMMENDATION

Approval on the May 20, 2008, consent agenda.

BACKGROUND

The Municipal Code requires that the Village Council annually approve a Class A Scavenger License for the Village's designated contractual waste hauler. All other haulers that operate in the Village must obtain a Class B License. The designation of the Class A License holder typically occurs at the end of the year, however, the Village changed to a new contractual hauler earlier this year. ARC Disposal and Recycling submitted all required application materials to obtain the Class B Licenses prior to January 1, 2008, and these materials and associated fees are identical to the requirements for the Class A License. In addition, the Village Council formally approved the contact with ARC in November 2007, thereby authorizing this contractor to perform service in the Village based on the terms in the contract. As such, this item is being presented to simply designate ARC as formal the Class A license holder but will not have any impact on operational activity or the term of the contract. Renewal of the license for 2009 will be presented to Council for consideration in prior to the end of this year.
