

VILLAGE OF DOWNERS GROVE
REPORT FOR THE VILLAGE COUNCIL WORKSHOP
APRIL 20, 2010 AGENDA

SUBJECT:	TYPE:	SUBMITTED BY:
Ladder Truck Repair - <i>Waive the One Week Waiting Period</i>	Resolution Ordinance ✓ Motion Discussion Only	Nan Newlon, P.E. Director of Public Works

SYNOPSIS

A motion is requested to authorize repair of the Fire Department ladder truck by Global Emergency Products, Inc. of Aurora, Illinois in an amount not to exceed \$22,000.

STRATEGIC PLAN ALIGNMENT

The Five Year Plan and Goals identified *Exceptional Services and Communication*.

FISCAL IMPACT

The FY10 Budget includes \$110,000 in the Fleet Services Fund for contract repairs to Village vehicles and equipment.

RECOMMENDATION

Staff recommends the Village Council waive the one-week waiting period to consider new business and approve this item under the April 20, 2010 Attorney's Report.

BACKGROUND

The Village maintains a 1998 Pierce Lance 100-foot platform ladder truck that is used to provide fire suppression and other emergency services. It is the only ladder truck in the Village fleet. Damage to the vehicle occurred on March 6, 2010 and involved the latter apparatus. The vehicle has been out-of-service since that date. There is only one authorized Pierce dealer in the region qualified to perform the required repairs, Global Emergency Products, Inc. When the truck was returned to the Village, it was determined that the diagnostic work and repairs did not completely fix the problem. Staff was able to call out representatives of Global Emergency Products and demonstrate an instance where the ladder apparatus failed to function properly after the initial work was completed.

Global Emergency Products conducted further inspection of the truck and found that the ladder swivel and micro controller unit requires replacement. They have estimated the repairs to cost approximately \$18,500 and require four (4) weeks to complete.

Staff is requesting a not to exceed amount of \$22,000 to ensure that any other minor unforeseen additional repairs can be accommodated expeditiously. The repair of the ladder controls is essential in order for this equipment to properly function until the Village is in a position to replace the vehicle.
