

VILLAGE OF DOWNERS GROVE
REPORT FOR THE VILLAGE COUNCIL MEETING
MAY 4, 2010 AGENDA

SUBJECT:	TYPE:	SUBMITTED BY:
Bid: Fire Hydrant Painting	Resolution Ordinance ✓ Motion Discussion Only	Nan Newlon, P.E. Director of Public Works

SYNOPSIS

A motion is requested to authorize award of a contract to Tri-Brothers Contracting Inc. of Southgate, Michigan for fire hydrant painting in the amount of \$119,420.05.

STRATEGIC PLAN ALIGNMENT

The Five Year Plan and Goals identifies *Top Quality Village Infrastructure and Facilities*.

FISCAL IMPACT

The FY10 budget provides \$60,000 in the Water Fund for fire hydrant painting services. The proposed fire hydrant painting contract would result in a total charge of \$41,772.50 for services in FY10.

RECOMMENDATION

Approval on the May 4, 2010 consent agenda.

BACKGROUND

The Village paints its 2,600 fire hydrants on a 5-year cycle as part of the routine maintenance of the hydrant. Maintaining the protective coating on fire hydrants helps them last longer, improves operability and makes them more aesthetically appealing. The contract amount is based on painting a specified number of hydrants within a designated geographic area as follows:

- 2010 – 539 fire hydrants between Butterfield Road and Ogden Avenue
- 2011 – 440 fire hydrants between Ogden Avenue and the Burlington Northern Santa Fe Railroad
- 2012 – 553 hydrants between the Burlington Northern Santa Fe Railroad tracks and 59th Street

A Call for Bids (CFB) for fire hydrant painting services was issued and published in February in accordance with the Village's Purchasing Policy. Contractors were asked to provide prices for one year and for three years. The bids received are summarized in the following tables:

One Year Contract Summary:

Bidder	Bid Price 2010
Tri-Brothers Contracting, Southgate, Michigan	\$42,042
Alpha Paintworks, Chicago, Illinois	\$48,510
CertaPro of Northern O'Hare, Wheeling, Illinois	\$49,264
Great Lakes Protective Coatings, Sturgeon Bay, Wisconsin	\$51,199
Giant Maintenance & Restoration, Mundelein, Illinois	\$52,822
Dawn Companies, Inc., Joliet, Illinois	\$59,290
Mueller Service Co., LLC, Plant City, Florida	\$61,985

Three Year Contract Summary:

Bidder	Bid Price 2010	Bid Price 2011	Bid Price 2012	3-Year Contract Total
Tri-Brothers Contracting, Southgate, Michigan	\$41,772	\$34,320	\$43,327	\$119,420
CertaPro of Northern O'Hare, Wheeling, Illinois	\$48,510	\$40,920	\$52,811	\$142,241
Alpha Paintworks, Chicago, Illinois	\$48,510	\$41,800	\$55,300	\$145,610
Great Lakes Protective Coatings, Sturgeon Bay, WI	\$51,199	\$42,680	\$54,747	\$148,626
Giant Maintenance & Restoration, Mundelein, IL	\$52,822	\$43,120	\$54,194	\$150,136
Mueller Service Co., LLC, Plant City, Florida	\$61,985	\$50,600	\$63,595	\$176,180
Dawn Companies, Inc., Joliet, Illinois	\$59,290	\$51,040	\$66,913	\$177,243

The lowest responsive and responsible bidder for both the one-year and three-year options is Tri-Brothers Contracting of Southgate, Michigan. Their municipal references were all positive. This contract would be their first with Downers Grove. Staff is satisfied that Tri-Brothers Contracting meets the Village's specifications and that their painting work will be what is required for all three years.

Staff proposes a three-year contract for fire hydrant painting services with Tri-Brothers Contracting Inc. FY10 would serve as the first year of the proposed contract and the contract would automatically renew for years two and three. The low bid by Tri-Brothers Contracting Inc. for each of the three years is significantly lower than expected. Unit prices this low occurred in 2008, as shown on the graph.

III. DETAILED SPECIFICATIONS

FIRE HYDRANT PAINTING SERVICES

Intent: The intent of this Call for Bids is to solicit sealed bids from reputable contractors who are capable of providing specified contractual fire hydrant painting services within the Village of Downers Grove (hereafter Village). This bid is open to all contractors actively engaged in supplying fire hydrant painting services as specified herein.

Introduction: The Village of Downers Grove has a fire hydrant painting program budgeted for the fiscal year 2010. Fire hydrants to be painted are generally located between Ogden Avenue and Butterfield Road. The Village initiated a five (5) year hydrant painting program in 2006. Some of the fire hydrants in the area to be painted this year are older and the coating is failing due to corrosion and weathering, while some of the fire hydrants have been recently repaired or raised to grade using factory coated parts that are painted black.

Scope of Work: The work to be done under these specifications includes furnishing of all labor, material, transportation, tools, and supplies necessary to sandblast, prime and paint approximately 539 fire hydrants within the Village. The objective of these specifications is to provide the material and workmanship necessary to produce a quality coating system. All painting work shall be implemented in accordance with the manufacturer's instruction and shall be performed in a manner satisfactory to the Village.

This work shall be started no later than May 31, 2010, and completed and accepted by the Village on or before September 3, 2010. The Village anticipates awarding the contract prior to April 2010.

Coating System: The Contractor shall use Tnemec Series 30-02SF Lemon Yellow/Safety Spra-Saf EN or Sherwin Williams Sher-Cryl HPA Series B-66-300 Safety Yellow paint.

All material shall be brought to the job site in the original sealed and labeled containers of the paint manufacturer and shall be subject to inspection by the Village. The contractor shall submit to the Village, immediately upon completion of the job, certification from the paint manufacturer indicating that the quantity of each coating purchased was sufficient to coat all surfaces in accordance with the specifications and manufacturer's recommendations.

Surface Preparation: Before blast cleaning, visible deposits of oil or grease shall be removed by any of the methods specified in SSPC-SP1 Solvent Cleaning.

The contractor shall abrasive blast clean all surfaces to remove all rust scale and existing paint on the entire hydrant in accordance with the Society for Protective Coatings Commercial Blast Clean for steel (SSPC-SP6).

1st Coat

Before any rusting occurs, apply one coat of primer compatible with the paint to be used. After the recommended dry time, apply one coat of Tnemec Series 30-02SF Lemon-Yellow/Safety Spra-Saf EN to all surfaces at a dry film thickness of 3.0-4.0 mils or Sherwin Williams Sher-Cryl HPA Series B66-300 Safety Yellow to all surfaces at a dry film thickness of 2.5-4.0 mils.

2nd Coat

Apply one coat of Tnemec Series 30-02SF Lemon-Yellow/Safety Spra-Saf EN to all surfaces at a dry film thickness of 3.0-4.0 mils or Sherwin Williams Sher-Cryl HPA Series B66-300 Safety Yellow to all surfaces at a dry film thickness of 2.5-4.0 mils after the manufacturer's recommended drying time.

The contractor shall apply each coating in accordance with these specifications and the paint manufacturer's recommendations. The coating shall be applied at the specified thickness. If the specified thickness is not obtained, an additional coat(s) of paint shall be applied. Dry film thickness shall be measured in accordance with current SSPC PA2, "Dry Paint Thickness with Magnetic Gauges".

All paint shall be applied in strict accordance with the applicable manufacturer's printed data sheet and container label outlining recommended minimum and maximum surface and air temperatures required for application. Paint shall not be applied to wet or damp surfaces and shall not be applied in rain, snow, fog or mist or when the relative humidity exceeds 85%.

No paint shall be applied when it is expected that the relative humidity will exceed 85% and/or the air temperature will drop below recommended levels within 12 hours after paint application. Dew or moisture condensation should be anticipated, and if such conditions are prevalent, painting shall be delayed until certain that the surfaces are dry. Painting should be completed well in advance of the probable time of day when condensation will occur in order to permit the film an appropriate drying time prior to the formation of moisture on the surface.

Proper protection of the surface adjacent to the hydrants is required to prevent abrasion or coloring. Preventive actions must be taken to prevent blast material and paint over-spray from damaging adjacent property and vehicles.

Contractor Qualifications: The contractor shall be required before the award of any contract to show to the complete satisfaction of the Water Manager that it has the necessary facilities, ability and resources to provide the services specified herein in a satisfactory manner.
