RECOMMENDATION

Approval on the February 8, 2011 consent agenda.

BACKGROUND

The Village obtains tree supply and planting services through the Suburban Tree Consortium (STC), which currently has 37 municipal members. Downers Grove has been active in this group since 1987. The STC provides members with a consistent supply of quality trees of the species and varieties requested for the municipal parkways in an efficient and cost effective manner by maintaining contracts with several northern Illinois nurseries. Collectively, STC members annually purchase over 5,500 trees.

More than 400 trees are planned to be planted this coming spring and fall. All locations are replacement plantings at residential addresses where trees were lost due to storms, disease, decline or death. These replacement tree plantings will contribute to the health and maintenance of the urban forest tree. Forestry staff will also continue to honor resident requests for specific tree species when practical.

The STC requires that municipalities present a resolution annually. Included in the resolution to continue with the STC is a list of trees that Forestry staff has advance-ordered for Downers Grove. The order includes trees that are more difficult to obtain, as well as those species that are typically requested by residents. The advance-ordering process has allowed staff to secure and obtain interesting trees such as miyabe maple and various new hybrid elms that are more resistant to Dutch elm disease. The advance order is a conservative quantity to ensure flexibility and the ability to add trees with each planting season subject to need.
