

VILLAGE OF DOWNERS GROVE
REPORT FOR THE VILLAGE COUNCIL MEETING
MARCH 13, 2012 AGENDA

SUBJECT:	TYPE:	SUBMITTED BY:
Purchase of Replacement Ambulance	Resolution Ordinance ✓ Motion Discussion Only	Nan Newlon, P.E. Director of Public Works

SYNOPSIS

A motion is requested to authorize the purchase of a 2013 Freightliner M2/MedTec M170 ambulance from Foster Coach Sales of Sterling, Illinois in the total amount of \$221,794.

STRATEGIC PLAN ALIGNMENT

The goals for 2011-2018 for include *Exceptional Municipal Services*.

FISCAL IMPACT

The adopted FY12 budget includes \$220,000 in the Equipment Replacement Fund for the purchase of a replacement ambulance. Sufficient budget authority is available in the Equipment Replacement Fund for this purchase, as the other 11 vehicles and pieces of equipment scheduled for replacement in 2012 are under budget by a total of \$24,000.

RECOMMENDATION

Approval on the March 20, 2012 consent agenda.

BACKGROUND

The 2012 vehicle replacement schedule consists of 15 vehicles and pieces of equipment. The Village plans to purchase a total of 12 vehicles this year, 11 of which are being considered the Consent Agenda tonight. The table below shows the vehicle that staff is currently recommending for purchase.

Quantity	Type of Vehicle	Make and Model	Dealer	Price
1	Ambulance	2013 Freightliner MedTec M170	Foster Coach Sales of Sterling, Illinois	\$221,794

The Village's Fleet Team, consisting of representatives from the Village Manager's Office and Finance, Public Works, Police and Fire Departments evaluated the need to replace the ambulance. All Village vehicles and equipment are targeted for replacement according to useful lifecycle replacement criteria. These criteria include age, usage, condition, repair costs, fuel efficiency and environmental impact. The Fleet Team reviewed the vehicles scheduled to be replaced and determined that the criteria for replacement were met in this case.

All Village vehicles and equipment are targeted for replacement according to a useful lifecycle replacement criteria guideline. The life expectancy of the ambulance is six years, for example, although the additional criteria noted above are also considered when making the final replacement recommendation.

It will take approximately 10 months from the time of order to take delivery of this vehicle which is planned to be in service in early 2013. The purchase is recommended to be made through a cooperative purchasing contract in accordance with the provisions of the Village Purchasing Policy. The ambulance

would be purchased through the Wisconsin EMS Association Group Buying Program, a joint purchasing program sponsored by the Wisconsin EMS Association.
