VILLAGE OF DOWNERS GROVE REPORT FOR THE VILLAGE COUNCIL MEETING MARCH 20, 2012 AGENDA

| SUBJECT: | TYPE: | | SUBMITTED BY: |
|-------------------------|--------------|-----------------|--------------------------|
| | | Resolution | |
| | | Ordinance | |
| Purchase of Replacement | \checkmark | Motion | Nan Newlon, P.E. |
| Ambulance | | Discussion Only | Director of Public Works |

SYNOPSIS

A motion is requested to authorize the purchase of a 2013 Freightliner M2/MedTec M170 ambulance from Foster Coach Sales of Sterling, Illinois in the total amount of \$221,794.

STRATEGIC PLAN ALIGNMENT

The goals for 2011-2018 for include Exceptional Municipal Services.

FISCAL IMPACT

The adopted FY12 budget includes \$220,000 in the Equipment Replacement Fund for the purchase of a replacement ambulance. Sufficient budget authority is available in the Equipment Replacement Fund for this purchase, as the other 11 vehicles and pieces of equipment scheduled for replacement in 2012 are under budget by a total of \$24,000.

UPDATE & RECOMMENDATION

This item was discussed at the March 13 Village Council meeting. Staff recommends approval on the March 20 Consent Agenda.

BACKGROUND

The 2012 vehicle replacement schedule consists of 15 vehicles and pieces of equipment. The Village plans to purchase a total of 12 vehicles this year, 11 of which are being considered the Consent Agenda tonight. The table below shows the vehicle that staff is currently recommending for purchase.

| Quantity | Type of Vehicle | Make and Model | Dealer | Price |
|----------|-----------------|-------------------|-----------------------|-----------|
| 1 | Ambulance | 2013 Freightliner | Foster Coach Sales | \$221,794 |
| | | MedTec M170 | of Sterling, Illinois | |

The Village's Fleet Team, consisting of representatives from the Village Manager's Office and Finance, Public Works, Police and Fire Departments evaluated the need to replace the ambulance. All Village vehicles and equipment are targeted for replacement according to useful lifecycle replacement criteria. These criteria include age, usage, condition, repair costs, fuel efficiency and environmental impact. The Fleet Team reviewed the vehicles scheduled to be replaced and determined that the criteria for replacement were met in this case.

All Village vehicles and equipment are targeted for replacement according to a useful lifecycle replacement criteria guideline. The life expectancy of the ambulance is six years, for example, although the additional criteria noted above are also considered when making the final replacement recommendation.

It will take approximately 10 months from the time of order to take delivery of this vehicle which is planned to be in service in early 2013. The purchase is recommended to be made through a cooperative

purchasing contract in accordance with the provisions of the Village Purchasing Policy. The ambulance would be purchased through the Wisconsin EMS Association Group Buying Program, a joint purchasing program sponsored by the Wisconsin EMS Association.
