Final Plat of Subdivision - Resubdivision of Green Acres	<input checked="" type="checkbox"/> Resolution <input type="checkbox"/> Ordinance <input type="checkbox"/> Motion <input type="checkbox"/> Discussion Only	Tom Dabareiner, AICP Community Development Director

**SYNOPSIS**

A resolution for a Final Plat of Subdivision has been prepared to resubdivide three existing lots into two new lots. The property located at 401-403 Lynn Gremer Court and 6568 Fairview Avenue.

**STRATEGIC PLAN ALIGNMENT**

The goals for 2011-2018 identified *Exceptional Municipal Services*.

**FISCAL IMPACT**

N/A.

**RECOMMENDATION**

Approval on the April 10, 2012 consent agenda.

**BACKGROUND**

The petitioner is requesting approval of a final plat of subdivision to combine three existing lots into two new lots. These three lots were part of the Green Acres subdivision in 2004 and were designated for stormwater detention. However, because the on-site stormwater detention was modified and completed in an acceptable manner that does not require the use of all three lots, the petitioner is now requesting to combine three lots into two lots, with one becoming a buildable single family residential lot and the other containing all of the stormwater detention.

The three lots are part of the Green Acres Subdivision approved in 2004. The Green Acres Subdivision, zoned R-3 Single Family Residence, is located on the west side of Fairview Avenue just north of 66<sup>th</sup> Street. The original approval of the 14-lot subdivision included extension of Davane Lane and creation of Lynn Gremer Court.

In late 2011, the new owner of the Green Acres Subdivision completed on-site stormwater detention. The shape of the pond was modified so that it does not take up all of Lots 12, 13 and 14. As such, the petitioner is now proposing to resubdivide these three lots into two new lots. Lots 12, 13 and 14 would be renamed Lots One and Two. Lot One would become buildable single family residential lot, while Lot Two would contain the entire stormwater detention basin. There would be no changes to Lots 1-11 of the original Green Acres Subdivision.

The developer is creating a new homeowners association for the Green Acres Subdivision. Lot Two and the detention facilities would be owned and maintained by this homeowners association. If the homeowners association fails to maintain the detention facility, a Special Service Area will allow the Village to levy a special tax on the property owners for the maintenance of the facility. The Village would then maintain the detention facilities. The SSA will appear on a future Council agenda.

The two proposed lots comply with Sections 28.1103(c) and 28.1104(c) of the Zoning Ordinance. The lots will meet the minimum lot dimension requirements for the R-3 zoning district and per Section 20.301 of the Subdivision Ordinance. The required five-foot wide public utility and drainage easements will be provided along the new side lot lines. A new blanket stormwater detention easement will be placed over Lot Two. All other required public utility and drainage easements already exist and adequately serve the subdivision. The lot dimensions are specified in the table below:

<b>401-403 Lynn Gremer Ct &amp; 6568 Fairview Ave</b>	<b>Lot Width (req. 75 ft.)</b>	<b>Lot Depth (req. 140 ft.)</b>	<b>Frontage (req. 45 ft.)</b>	<b>Lot Area (req. 10,500 sq. ft.)</b>
Lot 1	75 ft.	182 ft.	47.17 ft.	17,115 sq. ft.
Lot 2	90 ft.	251 ft.	98.1 ft. North 247.9 ft. East	33,316 sq. ft.

The majority of the required infrastructure has already been installed. The detention facility has been constructed and meets all requirements of the Village’s Stormwater Ordinance. The petitioner is in the process of installing remaining infrastructure originally approved in 2004. The petitioner will install the remaining seven trees on Lynn Gremer Ct and ten remaining trees along Davane Lane. One street light will be installed in Lynn Gremer Court. The petitioner will continue installation of public sidewalks at the time of construction of single family homes on individual lots.

All required park and school donations were paid by the original developer when the subdivision was approved. No additional payments are required at this time.

The consolidation is consistent with the Comprehensive Plan. The existing neighborhood is a single family residential neighborhood. The proposed resubdivision will allow for a new single family home which meets the Plan’s goal to ensure quality housing stock remains a staple of the community. The Residential Area Plan section of the Comprehensive Plan recommends residential areas provide a variety of housing and dwelling unit types and densities, generally organized by dwelling types and lot sizes as identified in the Land Use Plan. Additionally, the proposed lot sizes are consistent in width and area with other lots in the R-3 district.

The Plan Commission considered the petition at their March 5, 2012 meeting. One resident expressed concern the one additional home on the cul-de-sac would have a negative impact by increasing the density on Lynn Gremer Court. The Plan Commission determined the additional home is consistent with the original approval and the net impact was minimal.

The Commission found that the request met the standards of the Subdivision and Zoning Ordinances. Based on their findings, the Plan Commission recommended unanimous approval of the Final Plat of Subdivision. Staff concurs with the Plan Commission recommendation.

3. Plat of Survey
4. Plat of Subdivision
5. Detention Basin Exhibit

### **PROJECT DESCRIPTION**

The petitioner is requesting approval of a final plat of subdivision to resubdivide three existing lots into two new lots. The three lots are part of the Green Acres Subdivision approved in 2004. The lots have a total area of 50,431 sq. ft. The Green Acres Subdivision, zoned R-3 Single Family Residence, is located on the west side of Fairview Avenue just north of 66<sup>th</sup> Street. The approval of the 14-lot subdivision included extension of Davane Lane and creation of new Lynn Gremer Court. Lots 1-11 were designated for single family homes while lots 12, 13 and 14 located south of Lynn Gremer Court were designated for a stormwater detention facility.

The petitioner modified the detention facility so that it does not take up all of lots 12, 13 and 14. As such, the petitioner is proposing to resubdivide lots 12, 13 and 14 into two new lots. Lot One would become buildable single family residential lot while Lot Two would contain the entire stormwater detention basin.

Since 2004, four homes were completed and three more are currently under construction. The petitioner owns all other vacant lots in the subdivision and plans to construct single family homes on the remaining lots.

### **COMPLIANCE WITH COMPREHENSIVE PLAN**

The existing neighborhood is a single family residential neighborhood. The proposed resubdivision will allow for one more new single family home which meets the Plan's goal to ensure quality housing stock remains a staple of the community. The Residential Area Plan section of the Comprehensive Plan recommends residential areas provide a variety of housing and dwelling unit types and densities, generally organized by dwelling types and lot sizes as identified in the Land Use Plan. Additionally, the proposed lot sizes are consistent in width and area with other lots in the R-3 district. Staff believes the proposed resubdivision to create one more buildable lot is consistent with the Comprehensive Plan.

### **COMPLIANCE WITH ZONING ORDINANCE**

The property is zoned R-3 Single Family Residence District. The property is currently vacant. The two proposed lots comply with Sections 28.1103(c) and 28.1104(c) of the Zoning Ordinance. If the resubdivision is approved, the petitioner will be able to construct one additional single family home. The new home will meet all Zoning Ordinance bulk and setback requirements.

### **COMPLIANCE WITH THE SUBDIVISION ORDINANCE**

The two proposed lots will meet the minimum lot dimension requirements for the R-3 zoning district and per Section 20.301 of the Subdivision Ordinance. The lot dimensions are specified in the table below:

401-403 Lynn Gremer Ct & 6568 Fairview Ave	Lot Width		Lot Depth		Frontage		Lot Area	
	Required	Proposed	Required	Proposed	Required	Proposed	Required	Proposed
Lot 1	75 ft	75 ft	140 ft	182 ft	45 ft	47.17 ft	10,500 sq. ft.	17,115 sq. ft.
Lot 2	75 ft	90 ft	140 ft	251 ft	45 ft	98.1 ft North 247.9 ft East	10,500 sq. ft.	33,316 sq. ft.

The petitioner has not requested any exceptions from the Subdivision Ordinance. The required five-foot wide public utility and drainage easements will be provided along the new side lot lines. A new blanket stormwater detention easement will be placed over the entire Lot Two designated for the stormwater detention area. All other required public utility and drainage easements already exist and adequately serve the subdivision.

All required park and school donations were paid by the developer when the original subdivision was approved. No additional payments are required at this time.

**ENGINEERING/PUBLIC IMPROVEMENTS**

The petitioner is in the process of finalizing the construction of all required stormwater facilities for the entire Green Acres subdivision. The stormwater detention facility was originally planned for lots 12, 13 and 14. The petitioner modified the shape of the detention to create one more buildable lot. The detention facility would be entirely located on the proposed Lot Two, while the proposed Lot One is designated as a buildable lot. The detention facility meets all requirements of the Village’s Stormwater Ordinance. The petitioner will create a home-owners association which will be responsible for maintenance of the detention facility.

The majority of the required infrastructure has already been installed. The petitioner is in the process of installing remaining infrastructure items originally approved in 2004. The petitioner will install the remaining seven trees on Lynn Gremer Ct and ten remaining trees along Davane Lane. One street light will be installed in Lynn Gremer Court. The petitioner will continue installation of public sidewalks at the time of construction of single family homes on individual lots. The petitioner will install the final layer of asphalt on Lynn Gremer Court upon completion of all single family homes on the cul-de-sac.

**NEIGHBORHOOD COMMENT**

Notice was provided to all property owners within 250 feet of the entire property. In addition, the notice was posted on the site and published in the Downers Grove Reporter. Staff has not received any neighborhood comment regarding the proposal at this time.

**FINDINGS OF FACT**

Staff believes the proposed Final Plat of Subdivision to consolidate the three existing lots into two new lots meets the standards of Sections 28.1103(c) and 28.1104(c) of the Zoning Ordinance and Sections 20.101 and 20.301(b) of the Subdivision Ordinance. Staff believes the request is consistent with the Comprehensive Plan and Zoning and Subdivision Ordinances of the Village.

## RECOMMENDATIONS

---

The proposed final plat of subdivision is compatible with the surrounding zoning and land use classifications. Based on the findings listed above, staff recommends that the Plan Commission make a motion recommending approval of the final plat of subdivision associated with PC-06-12 to the Village Council subject to the following conditions:

1. The final plat of subdivision shall substantially conform to Final Plat of First Resubdivision of Green Acres of Downers Grove Subdivision prepared by C. M. Lavoie & Associates. Inc., dated December 12, 2011, last revised February 7, 2012 except as such plat may be modified to conform to the Village Codes and Ordinances.
2. The Home Owners Association Declaration of Restrictive Covenants document for the subdivision shall be recorded with the plat of resubdivision.
3. Water service stubs for Lots 13 and 14 shall be disconnect at the main prior to issuance of the certificate of occupancy for Lot One.
4. Upon completion of all remaining public improvements for the entire Green Acres Subdivision, the petitioner shall submit record drawings for approval by the Village Council. Along with the record drawings, the petitioner shall submit a guarantee security in the amount of 20% of the total cost of the public improvements, which shall expire no earlier than two years after acceptance of such public improvements by the Village Council.

Dear Mr. O'Brien,

On behalf of Greenscape Ventures, LLC, C.M. Lavoie & Associates, Inc. is pleased to submit 6 copies of the *Final Plat for the First Resubdivision of Green Acres of Downers Grove*. We would like to resubdivide Lots 12, 13 and 14 of the existing subdivision into 2 lots, one of which will be a single family residential lot with the same zoning and the other being a lot solely for stormwater management purposes. We request to be put on the earliest available Plan Commission agenda.

If you have any questions, please do not hesitate to contact our office.

Sincerely yours,

C.M. Lavoie & Associates, Inc.

### **FIRST RESUBDIVISION OF GREEN ACRES OF DOWNERS GROVE PROJECT SUMMARY**

The proposed First Resubdivision of Green Acres of Downers Grove consists of Lots 12, 13 and 14 of Green Acres of Downers Grove Subdivision which was recorded June 1, 2004 (Document Number R2004-144920). As part of the Green Acres of Downers Grove Subdivision, calculations were prepared to provide stormwater detention for the proposed subdivision at an off-site location. Roadway, watermain, sanitary and storm sewer were installed in the proposed subdivision as permitted. The off-site stormwater detention was not constructed. Four of the fourteen lots had single family houses constructed on them.

Since these homes were constructed, the remaining lots have changed ownership. The current owner/developer wishes to continue construction of homes on the remaining lots. Prior to constructing any homes in the subdivision, the developer is required by the Village of Downers Grove to construct a stormwater detention system. The developer has begun construction of a detention pond (please see drawing *EX-03 – Detention Basin Exhibit* by C.M. Lavoie & Associates, Inc. for construction drawing of the proposed detention pond) which is located on portions of lots 12 and 13 and all of lot 14.

The purpose of the First Resubdivision of Green Acres of Downers Grove is to resubdivide lots 12, 13 and 14 into two separate lots. Lot One will be a single family residential lot and Lot 2 will be used exclusively for stormwater management purposes.

Lot One conforms to all of the Village of Downers Grove zoning requirements for R-3 zoning including square footage, width, depth and setbacks as stipulated in the current Zoning Ordinance.

In addition to resubdividing Lots 12, 13 and 14, we are requesting that the existing Conservation Easement located on Lot 2 of the Green Acres of Downers Grove to be abrogated. The Conservation Easement was originally granted to the Lot to conserve the existing wetland. The wetlands have since been removed, resulting in no longer needing the easement.

OVERFLOW WEIR

**PC-06-12** A petition seeking final plat of subdivision approval to re-subdivide three existing lots into two new lots. The property is located at the southwest corner of Fairview Avenue and Lynn Gremer Court, commonly known as 403 and 401 Lynn Gremer Court and 6568 Fairview Avenue Downers Grove, IL (PINs 09-20-213-017, -018, -019) C.M. Lavoie and Associates, Inc., Petitioner; Greenscape Homes, LLC., Owner.

Chairman Jirik swore in those individuals who would be speaking on this petition.

Mr. Latinovic described the petition and location of the project, referring to an aerial photo on the overhead. The proposal was re-subdivide three lots into two new lots. The property was part of the larger Green Acre subdivision originally approved in 2004. He explained the original development included an extension of Davane Lane and the creation of Lynn Gremer Court. Lots 12, 13, and 14, were originally designated for stormwater detention. The current owner purchased the remaining ten lots and redesigned the shape of the detention. Mr. Latinovic noted the redesign of the pond allowed the petitioner to gain another buildable lot. He noted the petition is building three homes around the cul-de-sac. He indicated the petitioner was requesting a final plat of subdivision to create two new lots: Lot 1 and 2. Lot 1 would become a buildable lot while Lot 2 would become stormwater detention.

Mr. Latinovic stated all requirements of the Subdivision and Zoning Ordinances would be met. He noted the owner was not seeking any exceptions. Mr. Latinovic explained where public utility easements would be located on Lot 1. He stated a homeowners association would be created for the subdivision. He explained the applicant was currently completing the public improvements that were required as part of the original development.

Mr. Latinovic stated the proposal was consistent with the Comprehensive Plan; the lots were compatible in size to other surrounding properties. He noted staff recommended that the Plan Commission forward a positive recommendation to the Village Council subject to the conditions listed on page 4 of staff's report.

Regarding the detention area, Mr. Matejczyk asked for clarification for the height of the retaining wall. Mr. Latinovic explained a retaining wall was installed to allow for a deeper basin. Mr. Matejczyk expressed concern about the wall's height. Mr. Latinovic explained the Building Code required a fence or barrier if the drop was more than three feet. In this case, there was a double wall with five feet between walls and a fence would be installed along the south side of the pond, where the grade difference was more than three feet.

Mr. Hose inquired about a previous conservation agreement with regard to a wetland that was removed. Mr. Latinovic stated the wetland was located in another part of the Green Acres subdivision and did not affect this petition. Chairman Jirik noted the Commission should avoid discussing this matter because it did affect the subject properties.

Mr. Ken Neuman, owner of Greenscape Homes, LLC explained the retaining wall mentioned earlier was in place and was a two-step wall. He noted it was located next to the new lot as well as designed to act as a buffer to Lot 6 (to the west), which was part of the original Green Acres subdivision. Mr. Neuman explained the height of the wall would be five feet along the southwest corner. A fence would surround this area. He was working with the current property owner of Lot 6 regarding the installation of that fence. For the record, he stated that Lot 2 of the original Green Acres development contained no wetlands and the designation was subsequently removed.

Mr. Chris Lavoie, CM Lavoie & Associates, stated his office did the design for the original development. He proceeded to explain the history behind the conservation easement when Rosol Construction was the developer. Mr. Lavoie explained that when he did the original design for the development, the detention area (Lots 12, 13 & 14) was originally proposed to go to the pond on the property on the east side of Fairview Avenue (Fairview Ministries property). The Village required stormwater easements on Lots 12, 13 and 14 in the event the developer and Fairview Ministries could not come to an agreement for use of the pond. Mr. Lavoie provided details for the current detention area.

Mrs. Rabatah asked if a cross-section for the retaining wall existed, Mr. Neuman said it was not included in the plans. He indicated the horizontal differential between the two walls was six feet face-to-face. Mr. Tim Hejny clarified the separation was five to six feet. Mrs. Rabatah, however, read the plans differently, looking at the drop, and was not sure how high the concrete was protruding above the grade at the west wall. She indicated she was concerned with safety.

Mr. O'Brien clarified the walls were already installed. He stated staff reviewed the plans for the pond and both walls met the Village's Building Code. Mr. O'Brien stated he thought a fence would be installed to provide additional safety once the basin was complete. He stated the area adjacent to Lot 1 has a two and one-half foot maximum drop, which is acceptable per the Village's codes.

Chairman Jirik opened up the meeting to public comment.

Mr. William Wax, 402 Lynn Gremer Court, opposed "cramming" another house on an irregularly shaped lot next to a detention pond. He voiced safety concerns for the children with regard to the proximity and depth of the detention basin. He said the homes being constructed were smaller than the existing homes and the shape of the lot would not allow for a very large home.

Mr. Latinovic explained the dimensions of the lot, noting they met the subdivision requirements. He noted the building envelope was 60 feet by 132 feet.

Mr. Beggs noted that the original subdivision would have allowed three homes to be built; now only one home was proposed on two lots.

There being no further public comment, Chairman Jirik closed public comment. No Commissioner questions to the public.

Mr. Ken Newman called attention to the fact that the new Lot 1 was the largest lot on Lynn Gremer Court. He noted the home sizes for the other homes under construction on the street. He also indicated the proposed building materials were consistent with the neighboring properties.

**WITH RESPECT TO FILE PC-06-12, MRS. RABATAH MADE A MOTION THAT THE PLAN COMMISSION FORWARD A POSITIVE RECOMMENDATION TO THE VILLAGE COUNCIL, SUBJECT TO STAFF FOLLOWING CONDITIONS:**

- 1. THE FINAL PLAT OF SUBDIVISION SHALL SUBSTANTIALLY CONFORM TO FINAL PLAT OF FIRST RESUBDIVISION OF GREEN ACRES OF DOWNERS GROVE SUBDIVISION PREPARED BY C. M. LAVOIE & ASSOCIATES.
