ImageWare Systems Inc. Maintenance Contract	✓ Resolution Ordinance Motion Discussion Only	Robert Porter Chief of Police

**SYNOPSIS**

A resolution has been prepared to approve a one-year extension of the current maintenance agreement for \$16,800.10 between the Village and ImageWare Systems Inc. of California to provide hardware and software maintenance for the Police Department's digital booking system. The contract extension will begin December 1, 2012 and end on November 30, 2013.

**STRATEGIC PLAN ALIGNMENT**

The goals for 2011-2018 include *Exceptional Municipal Services*.

**FISCAL IMPACT**

The FY12 budget provides \$16,800 in the General Fund for this expenditure.

**RECOMMENDATION**

Approval on the October 2, 2012 consent agenda.

**BACKGROUND**

In November 2002, the Village purchased a Digital Booking and Photo Imaging System from ImageWare Systems Inc. for use in the Police Department. The software requires annual maintenance. The ImageWare System Inc. (IWS) maintenance contract provides for all hardware components, which include a server, capture station, two investigative stations, camera and ID card printer. It covers the software used for booking mug shots (pictures), photo lineups, ID cards and print formats. The maintenance coverage provides on-call support and preventative maintenance for these systems. The IWS system is interfaced with the Police Records system and the Identix Fingerprint System, which allows data to pass from one system to another without redundant entry of data. ImageWare System Inc. owns the system software and no other company is authorized to provide maintenance service to this system. For this reason, ImageWare System Inc. is a sole source vendor for their software and hardware maintenance.
