STRATEGIC PLAN ALIGNMENT

The Goals for 2013 to 2017 identified *Top Quality Infrastructure*.

FISCAL IMPACT

The adopted FY 2013 Community Investment Program included \$1,500,000 for the Barth Pond dredging project (DR-034).

RECOMMENDATION

Approval on the October 15, 2013 consent agenda.

BACKGROUND

Barth Pond is located along the south branch of St. Joseph's Creek, within the limits of the Village of Downers Grove. The property is owned by the Park District and is jointly maintained by the Village of Downers Grove and the Park District as required by a 1987 Intergovernmental Agreement between the Village and Park District governing maintenance of public lakes. The 1987 IGA provides that the Village shall be responsible for certain maintenance activities with respect to public lakes including storm water structures, periodic removal of accumulated silt, and the establishment of measures to control silt accumulation. "Public lake" is defined as a body of water which is owned by either the Village or the Park District and serves the joint purpose of storm water management and use by the public for recreational purposes.

The proposed MOU was created to clarify an understanding between the Village and the Park District wherein the Park District will contract for and manage the removal of accumulated silt in Barth Pond, restoring it to its originally excavated depth. As set forth in the 1987 IGA, the Village is required to pay for this work, but the MOU sets a maximum dollar amount the Village will be required to pay. The contract includes a maximum price of \$1,587,206; the actual cost may be less. As part of the agreement, the Village will make a payment to the Park District in advance of the work. If the cost of the project is less than the payment amount, the Park District will reimburse the difference to the Village.

Village staff assisted the Park District with a selection process where the most advantageous method of silt removal was determined. This was accomplished through issuing a Request for Qualifications and a

later Request for Proposals, following the prequalification of six design/build firms. After careful review the Park District is prepared to enter into a contract with Merrell Brothers, Inc.
