Consent	E. RES 00-05583 A resolution approving final plat of subdivision with exceptions for 5850 Janes Avenue	While I am not in support of this resolution as currently written due to the 59th street connection that is planned, I do not understand how the village can approve a plan that the Lisle Township commission as officially stated he will not sign off on due to the current plan for 59th St. By approving this, you are doing the developer and community a disservice as it leaves them with a plan they can not implement. Consent	E. RES 00-05583 A resolution approving final plat of subdivision with exceptions for 5850 Janes Avenue	Support the subdivision but as a direct neighbor, we're adamantly opposed to opening 59th Street from Elinor to Janes. Janes is too narrow, only opens to two other dead-end cul-de-sacs, and has a T junction at College--traffic has no flow and no where to go. Opening up 59th to Janes is a road to no where. The Village Comprehensive Plan sets as a goal cutting down on cut-through traffic yet this does the opposite at the expense of kid's safety. Please vote for a cul de sac, not a thru road.
