Impact of Metra Platform Construction on Grove Fest - Metra has informed the Village that the existing wooden barricades and construction fences adjacent to the construction zone cannot be moved closer to the tracks per Metra and BNSF regulations. To provide a more secure construction zone, Metra is exploring the possibility of parking a piece of equipment near each barricade to deter pedestrians from entering the construction zone. Furthermore, the Village will place additional barricades with "Do Not Enter" signs at each end of the platform adjacent to the existing Metra barricades. The Village barricades will be attached to existing fencing. Wayfinding signage to direct attendees will be posted as necessary.
