27. TERM OF CONTRACT

- 27.1 This Contract may be extended no more than twice for subsequent annual periods (two annual extensions) by mutual agreement of both parties, providing such agreement complies with Village purchasing policies and the availability of funds. However, if this Contract is not one that is subject to extension, such information will be available in the detailed specifications or special conditions section.

28. TERMINATION OF CONTRACT

- 28.1 The Village reserves the right to terminate the whole or any part of this Contract, upon written notice to the Contractor, for any reason and/or in the event that sufficient funds to

- 28.2 The Village further reserves the right to terminate the whole or any part of this Contract, upon written notice to the Contractor, in the event of default by the Contractor. Default is defined as failure of the Contractor to perform any of the provisions of this Contract or failure to make sufficient progress so as to endanger performance of this Contract in accordance with its terms. In the event that the Contractor fails to cure the default upon notice, and the Village declares default and termination, the Village may procure, upon such terms and in such manner as the Village may deem appropriate, supplies or services similar to those so terminated. The Contractor shall be liable for any excess costs for such similar supplies or services unless acceptable evidence is submitted to the Village that failure to perform the Contract was due to causes beyond the control and without the fault or negligence of the Contractor. Any such excess costs incurred by the Village may be set-off against any monies due and owing by the Village to the Contractor.

29. BILLING & PAYMENT PROCEDURES

- 29.1 Payment will be made upon receipt of an invoice referencing Village purchase order number. Once an invoice and receipt of materials or service have been verified, the invoice will be processed for payment in accordance with the Village payment schedule. The Village will comply with the Local Government Prompt Payment Act, 50 ILCS 505/1 et seq., in that any bill approved for payment must be paid or the payment issued to the Proposer within 60 days of receipt of a proper bill or invoice. If payment is not issued to the Proposer within this 60 day period, an interest penalty of 1.0% of any amount approved and unpaid shall be added for each month or fraction thereof after the end of this 60 day period, until final payment is made.
- 29.2 The Village shall review in a timely manner each bill or invoice after its receipt. If the Village determines that the bill or invoice contains a defect making it unable to process the payment request, the Village shall notify the Contractor requesting payment as soon as possible after discovering the defect pursuant to rules promulgated under 50 ILCS 505/1 et seq. The notice shall identify the defect and any additional information necessary to correct the defect.
- 29.3 If this Contract is for work defined as a "fixed public work" project under the Illinois Prevailing Wage Act, 820 ILCS 130/2, any contractor or subcontractor is required to submit certified payroll records along with the invoice. No invoice shall be paid without said records.

III. DETAIL SPECIFICATIONS

40.0 REQUEST

40.1 The Village of Downers Grove (VILLAGE) is requesting proposals for professional services from pre-qualified Environmental Engineering firms (ENGINEER) to provide CCDD consulting services for watermain replacement and resurfacing projects in the Village of Downers Grove.

41.0 SCOPE

41.1 The scope of the work includes environmental engineering services necessary to evaluate the subgrade soil composition and condition for project locations listed below.

41.2 The minimum scope shall include the following:

- Environmental Soil Sampling and Analysis per Illinois Public Act 96-1416 for CCDD compliance and appropriate certification from licensed professional engineer. NOTE: The Potential Impacted Properties (PIP) analysis of the projects listed in Section 41.3 shall be provided by the VILLAGE, and are included as part of the attached Appendix A (PIP Determination Forms, prepared by True North Consultants).
- All required laboratory tests of the soil samples
- Restoration of all core holes
- Project specific Final Report for each project.
- Provide 662 forms or signed and sealed 663 forms for each project location.
- The Village may elect to split the scope of work and award a contract to more than one ENGINEER. As such, “not to exceed” pricing for each specific project shall be stand alone and shall not rely on the ENGINEER being awarded the entire scope of work.

41.3 Below are the projects to be included in this scope of work. See attached location map (in Appendix A) for location information.

- **ST-004 – Roadway Maintenance Program.** The Project will include pavement patching, partial curb and gutter removal and replacement, pavement resurfacing, minor storm sewer repair/replacement, partial sidewalk removal and replacement, and parkway restoration.
- **WA-028 – Watermain Replacement Program.** The Project will include installation of new watermain, water services, valve vaults and hydrants, pavement patching, partial curb and gutter removal and replacement, pavement resurfacing, partial sidewalk removal and replacement, and parkway restoration.

41.4 If the ENGINEER perceives that additional services shall be necessary to properly investigate the subsurface conditions, such services shall be specifically listed in the Proposal and their price reflected in the proposed cost of such services.

42.0 PROJECT LOCATION AND LIMITS

Village of Downers Grove

- 42.1 See the Project Location Map included in the attached Appendix A.
- 42.2 PIP Determination Forms are included in the attached Appendix A. The full PIP Evaluation reports will be available upon request.

43.0 SUBSURFACE EXPLORATION

- 43.1 The ENGINEER shall determine the existence and location of underground utilities and structures in the area of subsurface exploration. The VILLAGE shall inform the ENGINEER of the existence and location of its underground utilities and structures. The ENGINEER shall be responsible for damage by his forces or those of his subcontractors to underground utilities or structures; provided, however, that the ENGINEER shall not be liable for damages to underground utilities or structures, resulting from the ENGINEER'S reliance on field locations inaccurately marked by employees or agents of the VILLAGE of said underground structures.
- 43.2. The ENGINEER shall select the sampling locations and depths and types of samples required, log the samples, direct the sampling operation, and supervise the transporting of samples to the laboratory. All samples shall be plotted within two feet horizontally of their true locations and within 0.25 feet of their true vertical elevation.

- 43.4 The ENGINEER shall establish a field and laboratory testing program designed to provide sufficient data for the preparation of a true and accurate analysis of the site and the preparation of recommendations.
- 43.5 The ENGINEER shall perform all sampling and testing in accordance with the current standards of the American Society for Testing and Materials (ASTM) for the specific type of sampling or testing involved. The ENGINEER shall also conform his work to the current requirements of the Illinois Department of Transportation (IDOT) for motor fuel tax projects, unless specifically directed otherwise by the VILLAGE.
- 43.6 The ENGINEER shall establish design parameters based upon laboratory test results, field data and general engineering principles.
- 43.7 A stand-alone formal report, (as differentiated from field reports) shall be prepared for each specific location by the ENGINEER. Report shall include such exhibits as are necessary to illustrate and support the report and recommendation.

- g. Estimate of Unit Price for Environmental Testing Services as described in section 47.
- h. A “not to exceed” fee for the services for each project.

45.0 PROPOSAL REVIEW and SELECTION PROCESS

Unless the Village exercises its right to reject all proposals, the contract will be awarded to that responsible Proposer(s) whose Proposal(s), conforming to the Contract Documents, will be most advantageous to the Village, price and other factors considered.

All responses to this RFP that meet the submittal requirements and the submittal deadline will be evaluated as described below.

45.1 Step One:

The Village will review and evaluate each firm’s proposal based on the requirements for submittal described above. Weighting of the evaluation will include but not be limited to the following:

- Approach to organizing and understanding of the project
- Responsiveness to requirements, terms, timeliness and conditions for project performance
- Fee

(Please do not include information or materials that are not relevant to or requested by this solicitation.)

45.2 Step Two:

Village staff will recommend a firm based on the entire submittal package. The Village reserves the right to determine the criteria for and select the best overall qualified firm, in the Village’s opinion, to execute the scope of work on behalf of the Village. **The Village may elect to split the scope of work and award a contract to more than one ENGINEER. As such, “not to exceed” pricing for each specific project shall be stand alone and shall not rely on the ENGINEER being awarded the entire scope of work.**

Village of Downers Grove

45.3 Step Three:

The Village will send a Notice of Award (NOA) letter to the selected firm, followed by a Notice to Proceed (NTP) for each individual project location.

46.0 PERIOD OF SERVICE

46.1 It is anticipated that notice of award will be given on or about March 11, 2015 and that the project specific services listed in section 41.3 will be complete by May 1, 2015. No additional working days will be granted by the Village for any reason, in that sufficient time is provided to offset any working days lost due to adverse weather conditions. Any costs associated in expediting laboratory testing to meet this deadline shall be borne by the ENGINEER with no additional compensation allowed.

46.2 If the Village exercises its option to terminate this agreement upon default by the Proposer, the Proposer shall cause to be delivered to the Village all drawings and field notes, or electronic data files, if any, with the understanding that all such material becomes the property of the Village. The Proposer shall be paid the total maximum cost as set forth above, less the cost incurred by the Village in completion of the work.

47.0 SCHEDULE OF PRICES

47.1 The "not to exceed" price for each project shall be completed by the proposer in the schedule below. In addition, a 20% overall contingency, to be used as needed on these or other projects as deemed necessary by the Village, shall be included in the total contract "not to exceed" price.

IV. PROPOSER'S RESPONSE TO RFP (Professional Services)

2015 CCDD CONSULTING – WATERMAIN AND RESURFACING PROJECTS
VILLAGE OF DOWNERS GROVE PROPOSAL NO.: ST-004 & WA-028
CEC PROJECT 150-600

Civil & Environmental Consultants, Inc. (CEC) has prepared the following professional services proposal describing the scope of services, schedule, and estimated costs for seven (7) project locations included in the Request for Proposal (RFP) entitled 2015 CCDD Consulting – Watermain and Resurfacing Projects. This proposal has been prepared in accordance with instructions outlined in the RFP issued February 9, 2015 by the Village of Downers Grove (the Village).

PROJECT UNDERSTANDING

The scope of the work included in the RFP is a request for environmental engineering services necessary to evaluate the subgrade soil composition and condition for seven (7) project locations. The purpose of which is to evaluate the subsurface conditions, complete the necessary laboratory testing, and prepare LPC forms 662 and/or 663 for Clean Construction and Demolition Debris (CCDD) disposal for each location. Details describing each of the proposed tasks are provided below.

In preparing our proposal, CEC reviewed the Potentially Impacted Property (PIP) Assessment Reports for each of the seven (7) project locations that have been completed and appended to the RFP. The PIPs recommend a minimum number of samples to be collected for each site. Our proposal assumes the number of samples and analytes as recommended in the PIPs. The project types included in the scope of services at the seven (7) locations include:

- ST-004 – Roadway Maintenance Program, which will include pavement patching, partial curb and gutter removal and replacement, pavement resurfacing, minor storm sewer repair/replacement, partial sidewalk removal and replacement, and parkway restoration;
- WA-028 – Watermain Replacement Program, which will include installation of new watermain, water services, valve vaults and hydrants, pavement patching, partial curb and gutter removal and replacement, pavement resurfacing, partial sidewalk removal and replacement and parkway restoration.

SCOPE OF SERVICES

As described below, CEC will conduct up to seven (7) individual subsurface investigations including laboratory testing, core hole restoration, and specific final reports with either 662 or 663 forms prepared for each project location. Each investigation will include the following:

Subsurface Investigation: Prior to drilling, CEC will mark each of the sample locations and either CEC or our subcontractor will request that the locations of subsurface utilities be marked by JULIE network utility company members and the Village Department of Public Works. Permits, access to the boring sites, and notification to local residents will be the responsibility of the Village.

CEC will complete up to seven (7) individual subsurface investigations. Each subsurface investigation will include soil sampling by either direct push sampling methods using a track-mounted Geoprobe or by hand augering. Boreholes will be advanced to depths of three to five feet below the existing grade with samples collected continuously from the ground surface to the borehole termination depth. The field exploration will be performed by or under the full-time supervision of an experienced CEC consultant or geologist, who will inspect each soil sample for visual and olfactory evidence of soil contamination and screen each soil sample using a photo ionization detector (PID).

Upon completion, each sample location will be filled with soil cuttings. The pavement will be restored using either cold mix asphalt or concrete patch in lieu of hot mix asphalt patch as specified in the project specifications. As-drilled boring locations will be taped to adjacent landmarks. Soil boring elevations will be referenced to centerline of the adjacent roadway.

Laboratory Testing: The laboratory testing program will include an analytical testing program as outlined in the PIP for each location. The laboratory testing program may include:

- Volatile Organic Compounds (VOCs) by USEPA Method 5035A/8026B;
- Benzene, Toluene, Ethylbenzene and Xylenes (BTEX) by (USEPA Method 8026B);
- Semi-Volatile Organic Compounds (SVOCs) by USEPA Method 8270C
- Polynuclear Aromatic Hydrocarbons (PNAs) by USEPA Method 8270C SIM;
- Polychlorinated Byphenols (PCBs) by USEPA Method 8082;
- Resource Conservation and Recovery Act (RCRA) Metals by USEPA Method 6020/7470A/7471A; and
- pH by USEPA Method 9045C;

Reporting: We anticipate the field exploration and laboratory testing programs will provide sufficient data to develop recommendations for each site. CEC will prepare a letter report for each site including the information summarized below:

- A cover letter with a summary of field and laboratory testing procedures;
- Results of the laboratory test program; and

- Either a completed LPC-662 CCDD compliance form with the Village listed as the Owner and responsible for certifying the form, or a completed LPC-663 CCDD compliance form, signed by a licensed Professional Engineer in the State of Illinois.

SCHEDULE

CEC will initiate work upon receipt of authorization to proceed. We anticipate being able to complete the subsurface investigations and provide the Village with final reports within three to five weeks of authorization to proceed.

ESTIMATED COSTS

We propose to provide the above services for the following not-to-exceed fees. Laboratory costs are based on a standard five (5) to seven (7)-day turn-around-time. If needed, the environmental services provided to the Village for handling and disposal of contaminated soils is not included in our not-to exceed fees. The additional environmental services will be provided to the Village on a time and material basis after receiving approval of a changed Scope of Work and fee from the Village.

The estimated fee and estimated man-hours for each individual project are provided below.

Our proposed fee and man-hour estimate are based on the following assumptions:

- The Village will provide access to each of the boring locations during normal business hours (Monday through Friday 7:00 am to 5:00 pm), and the borehole locations are accessible to truck-mounted drilling equipment.
- A standby rate of \$350.00 per hour for delays and lost time at no fault of CEC.
- The Village will provide site plans showing existing conditions and the proposed improvements showing roadway station and elevations and plan and profile sheets for the proposed underground improvements.
- CEC will fill the soil borings with soil cuttings and clean the drilling sites. Boring locations will be patched with cold patch asphalt.
- Traffic cones will be sufficient for traffic protection and no flaggers or additional traffic control will be necessary. If additional traffic protection is needed, it will be provided with an additional cost to be determined.
- Known hazardous conditions shall be disclosed prior to the start of work. Our proposal does not provide provisions for personal protective equipment beyond standard hard hat, steel toe boots, and safety glasses. Should conditions warrant an upgrade in the level of

personal protection, CEC will notify the Village of Downers Grove before proceeding with the scope of work.

- Our proposal will remain valid for a period of ninety (90) days after which CEC will have the opportunity to reconsider our scope, schedule, and fee.
