38. INSURANCE REQUIREMENTS

- 38.1 Prior to starting the work, Contractor and any Subcontractors shall procure, maintain and pay for such insurance as will protect against claims for bodily injury or death, or for damage to property, including loss of use, which may arise out of operations by the Contractor or Subcontractor or any Sub-Sub Contractor or by anyone employed by any of them, or by anyone for whose acts any of them may be liable. Such insurance shall not be less than the greater of coverages and limits of liability specified below or any coverages and limits of liability specified in the Contract Documents or coverages and limits required by law unless otherwise agreed to by the Village.

GENERAL SCOPE OF WORK

Intent: The Village of Downers Grove and The Village of Lisle (hereafter Village) desire to enter into a contract for Sod Restoration and Installation services from water utility work and roadside ditch maintenance. This Call for Bid is open to all contractors actively engaged in supplying the services as specified herein. Bidders will be required to demonstrate their capabilities through references or by means acceptable to the Village.

Prices shall remain firm through December 31, 2015.

Description: Work shall include, but not be limited to, all labor and materials required for the restoration of public and private areas in the Village that have been damaged by the excavation of the parkway due to repair of underground utilities and drainage ditches.

References: Bidders must submit with their bids a list of not less than five (5) current customers, including names and the addresses of facilities maintained by the prospective firm, and contact persons, with their daytime phone number, that can speak to the quality of services provided by the contract firm.

General Site Conditions: During typical utility repairs, a section of the parkway grass is removed. When repairs are completed, the excavated area is filled to grade or higher with excavation spoil, or with CA-7 stone. The spoil or gravel is typically allowed to settle for a minimum of one month before area is restored with topsoil and sod. Spoil or gravel is to be removed from the area so that the area can be restored with a minimum of twelve (12") inches of topsoil. These parkway areas

Village of Downers Grove

generally range in size from 5 to 15 SQYD.

The majority of the ditch regrading done by the Village shall be performed to finish grade. However in some instances, only a rough grade will be provided to the Contractor. In those instances, the Contractor will be required to furnish and install topsoil for the establishment of a finished grade prior to the placement of sod.

General Direction for Repair: The following general requirements are intended to govern the overall priority for the performance of the work described in this contract. As general requirements, they are not intended to dictate to the Contractor the precise method by which these tasks shall be performed.

The Contractor's operations shall be conducted to minimize the area disturbed by the work of the proposed improvements.

The work at each location included in this contract shall be done while keeping a minimum of one lane of traffic open at all times. An adequate number of certified flaggers shall be used to direct traffic around and through the work zone areas for safe travel of all pedestrians and vehicles.

The Contract Administrator will mark with white marking paint and identify all areas to be restored.

Expectations for Repair: All debris and spoil from the restoration operation shall be cleaned up before the work crew leaves the site. No debris or spoil shall be stockpiled for any reason. Debris and spoil are to be loaded onto a truck immediately. All lawn areas shall be raked clean, all streets and sidewalks shall be swept, and all debris and spoil shall be removed from the site. Areas are to be left in a condition equal to that which existed prior to the time when the damage occurred. Any and all necessary removal and hauling of unused material and all clean-up of the area shall be incidental to the contract. The Village anticipates issuing monthly work orders from April through October. The first work order will be issued immediately and will comprise mostly of utility repairs.

Timely Completion of Work: From the time that a work order is issued, the Contractor shall have ten (10) calendar days to complete all work as listed. Liquidated damages for failure to complete the work order work on time shall be assessed at \$100 per work day. Liquidated damages will accrue and be assessed until final completion of the work order and shall be deducted from any monies owed to the Contractor.

Sod Restoration and Installation operations shall not be performed during periods of drought conditions or moderate to heavy rainfall. The Contract Administrator shall make the final determination, on a daily basis, whether or not to delay, suspend, or cancel operations for that day.

Areas will be inspected at each specified location, after work is completed and the Contractor has certified that his completed work complies with the contract specifications. The Contract Administrator reserves the right to reject any material or completed work which does not comply with these specifications. Payment for any and all work will not be made until the site has been completed, inspected, and accepted.

Village of Downers Grove

All work orders given to the Contractor will show the size of the area to be restored and the type of work required.

Contract Supervision: This contract will be under the direction of the Contract Administrator and detailed supervision of the contract shall be provided by the Contract Administrator or his authorized representatives. No claims for any extra work or materials shall be allowed without written authorization from the Contract Administrator.

Working Hours: The Contractor will be allowed to schedule normal work hours between the hours of 7:00 a.m. and 7:00 p.m. Monday through Friday. Work during other hours will be allowed only as authorized by the Contract Administrator.

Right to Change Scope of Work: The quantities shown on the Bid Sheet are only for an illustrative purpose to enable the Village to uniformly evaluate bids. The amount of work detailed on the Bid Sheet is based on the Village's average experience. The Contractor should not assume that the figures represent a guaranteed amount of work. Due to budget restrictions, the Village reserves the right to add or delete from the contract as required. No adjustments in contract unit prices or additional compensation will be made for decreases in the quantities or services from the contract. Quantities for each item are estimates only and may be altered.

Contractors Representatives: The Contractor shall provide a competent supervisor on the job at all times, who shall have full authority to act for the contractor and to receive and execute directives from the Contract Administrator. Any instructions given to such supervisor executing work for the Contractor shall be binding on the Contractor as though given to the Contractor personally. Failure of the supervisor to act on said directives shall be sufficient cause to give notice that the Contractor is in default of the contract unless such directives would create potential personal injury or safety hazards. The Contractor's supervisor must be proficient in the use and interpretation of the English language.

Safety: The Contractor shall exercise every precaution at all times for the protection of persons and properties. The safety provisions of all applicable laws and ordinances shall be strictly observed.
