Village Council Meeting - The Village Council meeting will be held on **April 14 at 7:00 p.m. in the Council Chambers** at Village Hall.

Upcoming Proclamation

April 7 - Conservation in our Community

Construction to Resume on Main Street Railroad Platforms

Metra has informed the Village that their contractor, John Burns Construction, will resume work on the Main Street platform reconstruction project on April 13th. The work is planned to be completed by July 3rd. Demolition is planned to begin on the south (inbound) platform, and then move to the north (outbound) platform as soon as possible. The sidewalk along the west side of Washington Street, where it crosses the tracks (between Burlington and Warren), will be closed for the duration of the project. Pedestrians are to cross the tracks on the east side of Washington, or at Main Street. The western half of both platforms will remain open throughout construction. The Village will continue to assist Metra in communicating to commuters, and staff will continue to advocate for a timely completion of the project.
