Upcoming Proclamations

September 15 - Constitution Week and American Pharmacists Month

Clyde Estates Update

The Village's contractor, A Lamp Concrete Contractors Inc., has completed all storm sewer work, rough grading of all ditches, and driveway culvert replacement work. They have also verified depths of the existing watermains and water services. Next week, A Lamp will be working on lowering the identified sections of the watermain and water services. All underground work should be completed by the week of September 21st.

During the last two weeks of September, weather permitting, roadway surface milling of the top 3" of asphalt and full depth reclamation of existing pavement will take place. Full depth reclamation is a process that rebuilds the road by recycling the materials in the existing roadway. The materials are pulverized, mixed in with added cement, and compacted to become the new base for the road. This process is much quicker than conventional roadway reconstruction, and allows residents to drive on the road the same day the process is completed.
