**Fall Parkway Tree Planting**

Parkway tree planting began this week and is scheduled to be completed next week. A total of 371 trees will be planted representing 22 different tree species including a variety of oaks such as swamp white oak, bur oak, red oak, and chinkapin oak. Of the 371 trees, 36 are new tree plantings where there was no tree before, and the remaining 335 trees are replacements for trees removed due to EAB infestations, disease, decline or storm damage. Also, the Village is honoring 171 specific tree species requests from residents, which improves resident satisfaction and the likelihood of long-term tree survival.

## Lane Markers added to Downtown Parking Deck

Raised delineators have been installed near the entrance of the lower level of the parking deck. The purpose of the delineators is to better direct and slow down traffic as it enters and exits the deck.
