Village Council Meeting - The Village Council meeting will be held on **April 19 at 7:00 p.m. in the Council Chambers** at Village Hall.

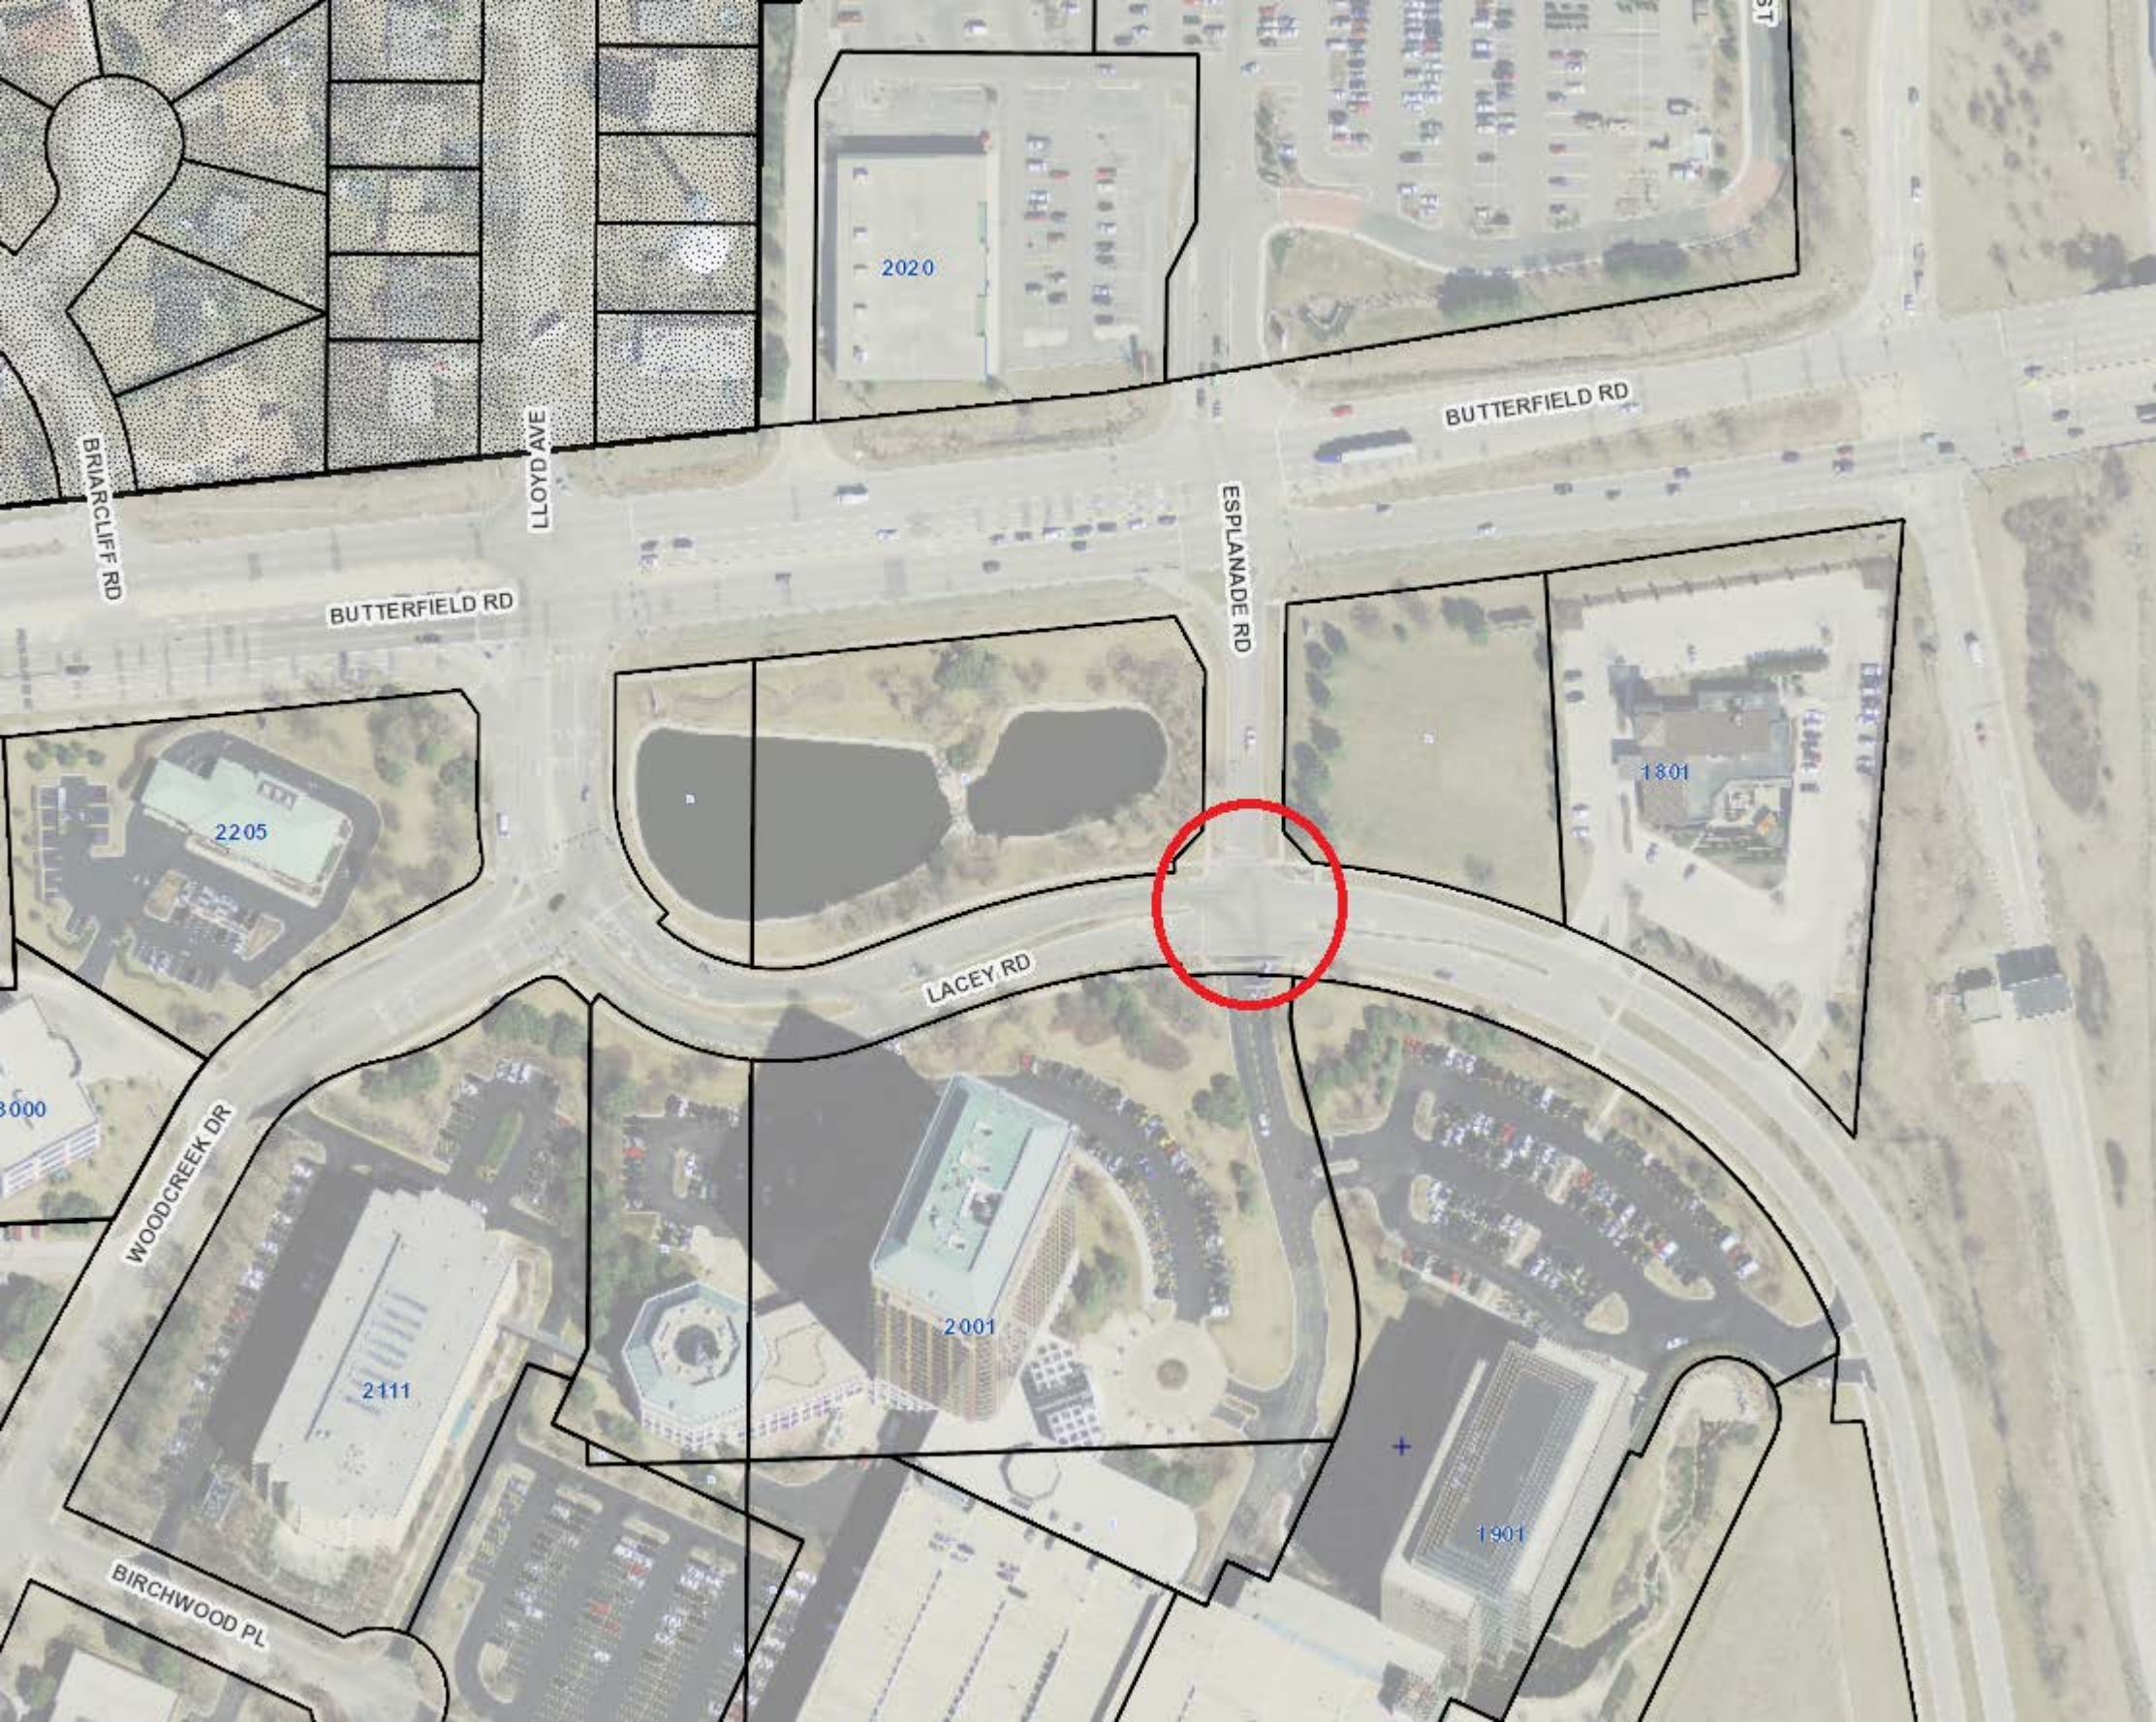

Traffic Control Modifications at Esplanade

At the request of Hamilton Partners, owners and managers of the Esplanade Center, Village staff is working with their engineer to temporarily modify the traffic control at the intersection of Lacey Road and Esplanade Road, from a 2-way stop control to an all-way stop control. There is a concern about the delay and safety of traffic that accesses the parking facilities for 1901 and 2001 Lacey Road. Because of the size of the intersection and the need to reduce the number of lanes for adequate visibility, Hamilton Partners has agreed to rent traffic control barrels. The Village will be providing the temporary signs needed to safely install this temporary change to the traffic control. This temporary condition will remain in effect for approximately 30 days during which time staff will be monitoring the performance at this location. If it performs as anticipated, staff will work with Hamilton Partners on a permanent change to the geometry of the intersection. A location map and exhibit showing the proposed changes are attached.
