10. Manager's Report - Committee Room

A. Information: Stormwater Utility Discussion

How many questions may Village place on the ballot?

Three.

If the Village places the maximum number of questions on the ballot, are other resident initiated questions allowed to be placed on the ballot as well?

No. There are a maximum of three spots on the ballot and they are available on a first-come, first-serve basis. If the Village certifies three questions first, then no other questions may be submitted. Likewise, for every resident-initiated question submitted first, one fewer spot would remain for the Village's questions.

Are these questions intended to be advisory?

Yes
