5. Consent Agenda

C. Resolution: Authorize an Agreement with United States Cylinder Gas

Why is this a proposed 5-year contract? How does this contract comport with the purchasing policy?

This contract complies with the Village's purchasing policy. Although this is a 5-year contract, it does not obligate the Village to make any minimum purchases. The company has agreed to hold its prices and not institute any price increase during the five (5) year contract term. The Village may make purchases from this company at these specified prices at any time during the contract term.

E. Motion: Award a Contract Not to Exceed \$134,134.00 to DLZ Illinois, Inc, Chicago, IL, for Professional Services Related to Downtown Business District Crosswalk and Accessibility Improvements

Are the pedestrian crosswalks physically failing? Would the Village be doing any work to these crosswalks now if there were no ADA issues?

Yes, in many locations the pedestrian crosswalks are physically failing. The Village would still be performing this work even if there were no ADA issues.
