Parkway tree planting in the Village will occur between October 24 and November 4. A total of 318 trees will be planted representing 27 different tree species. The 2016 planting will include a variety of oaks such as swamp white oak, red oak, and chinkapin oak. Of the 318 trees, 17 are new tree plantings where there was no tree before, and the remaining 301 trees are replacements for trees removed due to EAB infestations, disease, decline or storm damage. The Village is honoring 152 specific tree species requests, improving resident satisfaction and the likelihood of longterm tree survival.
