Extension of Contract - 2017 Sidewalk Rehabilitation Project	Nan Newlon Director of Public Works

SYNOPSIS

A resolution has been prepared to authorize the extension of an existing contract for the 2017 Sidewalk Rehabilitation Project (S-006) to Safe Step LLC of Hortonville, Wisconsin in the amount of \$84,450.

STRATEGIC PLAN ALIGNMENT

The goals for 2015-2017 include *Top Quality Infrastructure*.

FISCAL IMPACT

The FY17 budget includes \$90,000 in the Capital Projects Fund (Page 4-29, Line 20), for this contract.

RECOMMENDATION

Approval on the March 7, 2017 consent agenda.

BACKGROUND

The Sidewalk Rehabilitation Project consists of the removal of sidewalk vertical displacements less than 1-1/8", where no other sidewalk deficiencies exist, by saw-cutting the concrete to remove trip hazards. This method of vertical displacements removal meets ADA compliance, is cost effective, clean, and efficient. In addition, the method does not require any excavation of the homeowner's parkway or property.

This contract was bid in 2016 and Safe Step LLC agreed to a 0% price increase for 2017. They satisfactorily performed this work for the Village in 2011, 2012, 2013, 2014, 2015, and 2016. Staff is recommending a contract extension to Safe Step, LLC in lieu of advertising a new call for bids.

The following Special Provisions shall modify, supercede, or supplement the Standard Specifications referred to in Section III - General Provisions.

Where any section, subsection, paragraph, or subparagraph of the Standard Specifications is *supplemented* by any of the following paragraphs, the provisions of such section, subsection, paragraph, or subparagraph shall remain in effect. The Special Provisions shall govern in addition to the particular Standard Specification so supplemented, and not in lieu thereof.

Where any section, subsection, paragraph, or subparagraph of the Standard Specifications is *amended, voided, or superceded* by any of the following paragraphs, any provision of such section, subsection, paragraph, or subparagraph standing unaffected, shall remain in effect. The Special Provisions shall govern in lieu of any particular provision of the Standard Specification so amended, voided, or superceded, and not in addition to the portion changed.

SP-1 SCOPE OF WORK

Work involves removing public sidewalk vertical slab separations within Village rights-of-way at various locations on various streets by method of saw cutting. The Contractor shall saw cut sidewalk vertical separations at locations designated and within the criteria established by these specifications. Village will supply a list and map of locations for which the Contractor will provide services. The list will show the estimated quantity for each location. It is intended to provide a list of locations for approximately 20% of the total quantities. The remainder of the quantities will be performed on criteria bases as described in SP-3 SAWING CRITERIA.

In addition to the work involved with physically cutting sidewalk per contract specifications, the contractor shall generate a comprehensive list of vertical separations that have been mitigated (saw cut) and locations of vertical separations encountered, within the project limits defined by the Village, which cannot be mitigated by saw cutting due to the height of the vertical separation. Generation of said list(s) shall be included in the cost of SAW CUTTING SIDEWALK, SPECIAL, shall be performed at the discretion of the Village, and shall be delivered in digital (.xls) format to the Village no more than 7 calendar days after field data is gathered.

SP-2 QUALIFICATIONS OF CONTRACTORS

In addition to the requirements set forth in Section 10.1 above, any bidder submitting a bid on this project must demonstrate competence, reliability, and be actively engaged in this specific type of work. The contractor must demonstrate competence prior to or along with submitting a bid by including a history and references, listing completion dates, and submitting bonding information from prior projects, and/or performing an on-site demonstration of their capacity to perform the work as required. The Village reserves the right to disqualify a bid and/or contractor if they are deemed not to be competent or reliable. The Village also reserves the right to select the bid deemed to be most advantageous to the Village.

SP-3 SAWING CRITERIA

The interruption of services and access shall be conducted in accordance to a plan mutually agreed to between the Engineer and Contractor.
4. Access to all driveways within the project limits shall be maintained whenever possible.
5. Gasoline or diesel operated equipment shall be equipped with mufflers and insulators to minimize noise.

SP-5 LIMITATIONS OF OPERATIONS

1. **GRINDING OF SIDEWALKS TO REMOVE VERTICAL SEPERATIONS SHALL NOT BE ALLOWED.**
2. No storing of equipment or materials on the sidewalk or private property shall be allowed without prior approval of the Engineer.

Village of Downers Grove – 2016 Sidewalk Rehabilitation Project (S-006-16)

location, all debris, cuttings, and concrete dust shall be immediately swept clean and removed from the sidewalk surface and adjacent sidewalk, rail, driveway, landscaping, building face, and/or other objects in the vicinity of the work.

SP-6 SAW CUTTING OF SIDEWALKS, DRIVEWAYS, AND CURBS - DESCRIPTION

1. The Contractor shall take precautions during saw cutting operations to not disfigure, scar, impair or damage any surrounding surfaces including, but not limited to, sidewalk, driveway, roadway, steps, walls, railings, light poles, turf or any public or private installations such as trees, irrigation sprinkler heads, electric fences, etc.
2. All trip hazards marked for saw cutting must be removed in accordance with the American with Disabilities Act (ADA) requirements with the resulting finish being ADA compliant. Each offset must be tapered at a 1:12 slope and must have smooth uniform appearance and texture.
3. The finished surface shall have a coefficient of friction of at least 0.6.
4. The finished result of each cut shall be taken to a zero point of differential settlement along the entire length of the cut and to both edges of the sidewalk to eliminate trip hazards the full width of the sidewalk.
5. Existing concrete, asphalt mixes, or other types of material used to shim raised sidewalks shall be removed from adjacent sidewalk stones prior to saw cutting sidewalk.

EQUIPMENT

All sidewalk cutting shall be done with diamond-tipped blades and saws capable of cutting at any angle and able to remove the concrete completely to all edges of the sidewalk. The flush-cutting concrete saw shall have a saw-mounted vacuum hood equipped with HEPA A type filters.

Method of Measurement: Saw cutting of sidewalk will be measured for payment in inch-feet of sidewalk cut. The cost of cleaning sidewalk shall be included in the price bid for saw cutting. The quantity of sidewalk cut will be determined by multiplying the average sidewalk vertical separation height times the length of saw cut along the joint on each vertical separation in inch-feet. The Contractor is required to record and submit, with each invoice, the exact dimensions of each vertical separation removed per location. Depth shall be measured to the nearest 1/8 inch.

Basis of Payment: This work shall be paid for at the contact unit price per **INCH-FEET** for:

SAW CUTTING SIDEWALK, SPECIAL,

which price shall be payment in full for all labor, equipment, tools, materials, mobilizations, generation of lists for mitigated and non-mitigated vertical separations (see SP-1 SCOPE OF WORK), and all other costs associated with such work as specified herein.
