

VILLAGE OF DOWNERS GROVE
Report for the Village
4/17/2018

SUBJECT:	SUBMITTED BY:
Award of Bid - 2018 Pavement Crack Sealing	Nan Newlon Director of Public Works

SYNOPSIS

A motion is requested to award a contract for the 2018 Pavement Crack Sealing Project to Denler, Inc. of Mokena, Illinois in the amount of \$218,830.80.

STRATEGIC PLAN ALIGNMENT

The goals for 2017-2019 include *Top Quality Infrastructure*.

FISCAL IMPACT

The FY18 budget includes \$220,000 in the Capital Projects Fund (Page 4-17, Line 20) for this project.

RECOMMENDATION

Approval on the April 17, 2018 consent agenda.

BACKGROUND

This project is a component of the 2018 Roadway Maintenance Program (CIP Project ST-004). The scope of this project includes crack sealing on approximately 38 miles of Village streets. In 2016, a Call for Bids (CFB) was issued by the Village of Woodridge on behalf of the DuPage Municipal Partnering Initiative (MPI), which was published in accordance with the Village's Purchasing Policy. Eight communities along with DuPage County took part in this bidding process. The 2016 contract was awarded to Denler, Inc., with unit prices that were approximately 7.5% less than the bids the Village received in 2015. In addition to the bid pricing for 2016, the contract included optional pricing for years 2 and 3 (2017 and 2018). The "Year 2" unit prices were still similar or lower than the 2015 pricing, and "Year 3" unit prices are increasing less than 3% over "Year 2". Members of the DuPage MPI have agreed that it is advantageous to utilize this pricing rather than re-bid for work in 2018.

Denler, Inc. has satisfactorily performed work of similar scope on multiple projects for Downers Grove, Lombard, and other surrounding communities. Staff recommends award of this contract to Denler, Inc.

GENERAL TERMS AND CONDITIONS**MARCH 2016****1. INTENT**

It is the intent of the Village of Burr Ridge (BURR RIDGE), the City of Darien (DARIEN), the Village of Downers Grove (DOWNERS GROVE), the County of DuPage (DUPAGE), the Village of Lombard (LOMBARD), the Village of Villa Park (VILLA PARK), the City of West Chicago (WEST CHICAGO), the City of Wheaton (WHEATON), and the Village of Woodridge (WOODRIDGE) (collectively, the "Local Public Agencies (LPAs)") to jointly bid roadway crack sealing and bike path seal coating services and award these services to a single contractor ("Contractor").

Through this joint bid process, the LPAs are presenting an economy of scale to potential bidders, providing them with opportunities for increased revenues as well as reduced costs, which the bidders will in turn extend to the LPAs via lower pricing. The Village of Woodridge is conducting the bidding process on behalf of the LPAs. Each LPA's municipal/county manager or board of trustees/council as the case may be, will have the right to review and independently approve or reject the bid award and execute the Agreement Acceptance.

All work under this contract shall comply with the Prevailing Wage Act of the State of Illinois, 820 ILCS 130/0.01 et seq. and Employment of Illinois Works on Public Works Act (30 ILCS 570/0.01).

2. BID PRICE

Please submit pricing for the base bid items, which include year one (1) pricing for all work items.

As optional pricing, the LPAs request fixed pricing for year two (2) and year three (3) for crack sealing asphalt pavement, crack and joint sealing PCC pavement, fiber-asphalt crack sealing, seal coating bike paths and parking lots, and parking lot pavement markings.

The Contractor shall identify the discount for each LPA if equipment staging is allowed at LPA facilities.

The LPAs reserve the right to award in part or in whole, or to not award, whatever is deemed to be in the best interest of the LPA.

3. SECURITY GUARANTEE

Each bidder shall submit a Bid Bond, Certified or Cashier's Check in the amount of 5% to the Village of Woodridge to serve as a guarantee that the bidders shall enter into a contract with the LPAs to perform the work identified herein, at the price bid. As soon as the bid prices have been compared, the Village of Woodridge will return the bonds of all except the three lowest responsible and responsive bidders. When the Agreement is executed the bonds of the two remaining unsuccessful bidders will be returned. The bid bond of the successful bidder will be retained until the payment bond and performance bond have been executed and approved, after which it will be returned.

Any bid not complying with the Security requirement will be rejected as non-responsive.

4. VOLUME/ESTIMATED QUANTITY

The quantities indicated are estimated quantities. The LPAs do not guarantee any specific amount and shall not be held responsible for any deviation. This contract shall cover the LPA's requirements whether for more or less than the estimated amount.

The LPAs reserve the right to increase and/or decrease quantities, add or delete locations or LPAs during the term of the Agreement, whatever is deemed to be in the best interest of the LPAs.

5. AWARD

Award shall be made to the lowest responsive and responsible bidder who best meets the specifications including financial capacity to perform, experience and qualifications performing similar work, and scheduling based upon the evaluation criteria specified herein.

Award shall be made by each LPA on a total lump sum for its portion of the base bid. The LPAs reserve the right to award in part or in whole or not award any portion of the bid, whatever is deemed to be in the best interest of the LPAs. The Village of Woodridge further reserves the right to reject any or all bids.

Each year, the individual LPAs shall award their work to the Contractor independently of each other after having

secured permission to do so from their respective corporate authorities. Work shall proceed in an individual LPA per its scheduling with the Contractor regardless of whether all of the LPAs' corporate authorities have approved their awards to the Contractor for their respective work by the individual LPA's scheduled start date.

6. **TERM**

The Agreement shall be in effect for one (1) year from date of award. The LPA reserves the right to renew the Agreement for two (2) additional one (1) year terms, subject to acceptable performance by the Contractor and price identified herein. At the end of any contract term, the LPA reserves the right to extend this contract for a period of up to ninety (90) days for the purpose of getting a new contract in place.

Work in each LPA shall begin in spring/summer 2016, pending approval by its corporate authorities. Upon each renewal, the Contractor shall provide services for the LPAs per the schedule that each LPA coordinates with the Contractor.

The Contractor will begin services for the LPAs in spring/summer of each year, and will complete these services by September 30 of each year. The completion date may be extended for an LPA upon mutual written consent by the LPA and the Contractor.

For any year beyond the initial year, this contract shall be contingent upon the appropriation of sufficient funds; no charges shall be assessed for failure of an LPA to appropriate funds in future contract years.

7. **CONTRACT BONDS**

The successful Contractor shall furnish within ten (10) calendar days after being notified of the acceptance of bid:

- 8.1 A performance bond satisfactory to each LPA, executed by a surety company authorized to do business in the State of Illinois, in an amount equal to 100 percent (100%) of the purchase order issued by each LPA as security for the faithful performance of the LPA's contract; and
- 8.2 A payment bond satisfactory to each LPA, executed by a surety company authorized to do business in the State of Illinois, for the protection of all persons supplying labor and materials to the Contractor or Subcontractors for the performance of work provided for in the contract, in an amount equal to 100 percent (100%) of the purchase order issued by each LPA.
- 8.3 Documents required by this section must be received and approved by the LPA before a written contract will be issued.

All bonds must be from companies having a rating of at least A-minus and of a class size of at least X as determined by A.M. Best Ratings.

8. **MODIFICATIONS**

Bidders shall be allowed to modify/withdraw their bids prior to opening. Once bids have been received and opened no modifications shall be permitted without the approval of each of the LPA's Corporate Authorities.

9. CONTACT WITH LPA PERSONNEL

All bidders are prohibited from making any contact with the respective LPAs' Presidents/Mayors, Trustees, Council Members, or any other official or employee of the LPAs (collectively, "LPAs Personnel") with regard to the call for bids, other than in the manner and to the person(s) designated herein. The respective City/Village/County Manager or Administrator reserves the right to disqualify any bidder found to have contacted LPA Personnel in any manner with regard to the call for bids. Additionally, if the Manager or Administrator determines that the contact with LPA Personnel was in violation of any provision of 720 ILCS 5/33E, the matter will be turned over to the DuPage County State's Attorney for review and prosecution.

10. 11. DISCLOSURES AND POTENTIAL CONFLICTS OF INTEREST (30 ILCS 500/50-35)

Each LPA's Code of Ethics prohibits public officials or employees from performing or participating in an official act or action with regard to a transaction in which he has or knows he will thereafter acquire an interest for profit, without full public disclosure of such interest. This disclosure requirement extends to the spouse, children and grandchildren, and their spouses, parents and the parents of a spouse, and brothers and sisters and their spouses.

To ensure full and fair consideration of all bids, the LPAs require all bidders including owners or employees to investigate whether a potential or actual conflict of interest exists between the bidders and any LPA, their officials, and/or employees. If the bidders discover a potential or actual conflict of interest, the bidders must disclose the conflict of interest in its proposal, identifying the name of the LPA official or employee with whom the conflict may exist, the nature of the conflict of interest, and any other relevant information. The existence of a potential or actual conflict of interest does NOT, on its own, disqualify the disclosing bidder from consideration. Information provided by the bidders in this regard will allow the LPA to take appropriate measures to ensure the fairness of the bidding process.

The Village of Woodridge requires all bidders to submit a certification, enclosed with this bid packet, indicating that the bidder has conducted the appropriate investigation and disclosed all potential or actual conflicts of interest.

By submitting a bid, all bidders acknowledge and accept that if any LPA discovers an undisclosed potential or actual conflict of interest, that LPA may disqualify the bidders and/or refer the matter to the appropriate authorities for investigation and prosecution.

11. DOCUMENT OBTAINED FOR OTHER SOURCES

The Village of Woodridge is the only official source for bid packages and supporting materials. Registration with the Village of Woodridge is the only way to ensure bidders receive all addenda and other notices concerning this project. The Village of Woodridge cannot ensure that bidders who obtain bid packages from sources other than the Village of Woodridge will receive addenda and other notices. All bidders are advised that bids that do not conform to the requirements of this bid package, including compliance with and attachment of all addenda and other notices, may, at the LPAs' discretion, be rejected as non-responsive and/or their bid disqualified. In such cases, the Village of Woodridge will NOT re-release the project absent extraordinary circumstances.

12. PREVAILING WAGE

Contractor agrees to comply with the Illinois Prevailing Wage Act, 820 ILCS 130/1 *et seq.*, for all work completed under this Contract. Contractor agrees to pay the prevailing wage and require that all of its subcontractors pay prevailing wage to any laborers, workers or mechanics who perform work pursuant to this Contract or related subcontract. For applicable rates, go to the State of Illinois – Department of Labor website (www.state.il.us/agency/idol/rates/rates.HTM) and use the most current DuPage County rate. The Department revises the prevailing wage rates and the Contractor or subcontractor has an obligation to check the Department's website for revisions to prevailing wage rates throughout the duration of this Contract.

Contractor and each subcontractor shall keep or cause to be kept accurate records of all laborers, mechanics and other workers employed by them on the public works project, which records must include each worker's name, address, telephone number when available, social security number, classification, hourly wage paid (including itemized hourly cash and fringe benefits paid in each pay period), number of hours worked each day, and the starting and ending times of work each day. These records shall be open to inspection at all reasonable hours by any representative of the LPA or the Illinois Department of Labor and must be preserved for five (5) years from the date of the last payment on the public work.

Since this is a contract for a public works project, as defined in 820 ILCS 130/2, Contractor agrees to post at the job site in an easily accessible place, the prevailing wages for each craft or type of worker or mechanic needed to execute the contract or work to be performed.

In the event that this is a construction project where Motor Fuel tax monies or state grant monies are used in the construction, maintenance and extension of LPA streets, traffic control signals, street lighting systems, storm sewers, pedestrian subways or overhead crossings, sidewalks and off-street parking facilities, and the like, the LPA will require an Apprenticeship and Training Certification, attached after the Bidder's Certification.

Any bond furnished as security for performance shall include a provision as will guarantee faithful performance of the Illinois Prevailing Wage Act, 820 ILCS 130/1 et seq.

Effective January 1, 2006, penalties for violations for the Prevailing Wage Act will increase from 20% to 50% of the underpaid amounts for second or subsequent violations. An additional penalty of 5% of the underpayment penalty must be paid to workers each month the wages remain unpaid (put from the current 2% penalty).

For violations that occur after January 1, 2006, the debarment period – during which contracts are ineligible for public works contracts – increases from 2 years to 4 years if two notices of violation are issued/serious violation occur within a 5-year period. In addition, a new monetary penalty of \$5,000 may be assessed against contractors who retaliate against employees who report violations or file complaints under the Prevailing Wage Act.

13. 14. CERTIFIED PAYROLL REQUIREMENTS (Public Act 94-0515)

Since this is a public works project as defined under the Prevailing Wage Act, 820 ILCS 130/2, any and all contractors and subcontractors shall submit certified payroll records to the LPA no later than the tenth (10th) day of each calendar month for the immediately preceding month in which construction on a public works project has occurred. WITHOUT THIS PAPERWORK, NO INVOICE SHALL BE PAID BY THE LPA. Contractors and subcontractors must also submit a statement affirming that the records are true and accurate, that the wages paid to each worker are not less than the prevailing rate, and that the contractor and subcontractor are aware that filing false records is a Class A misdemeanor. The records must include the name, address, telephone number, social security number, job classification, hours of work, hourly rate, and start and end time of work each day for every worker employed on the public work. The LPA reserves the right to check the pay stubs of the workers on the job. The LPA further cautions that payment for any services rendered pursuant to this Contract may be predicated upon receipt of said records.

14. EMPLOYMENT OF ILLINOIS WORKERS ON PUBLIC WORKS ACT (30 ILCS 570/)

Pursuant to 30 ILCS 570/, any month immediately following 2 consecutive calendar months during which the level of unemployment in the State of Illinois has exceeded 5% as measured by the United States Department of Labor, the Contractor shall employ at least 90% Illinois laborers on this project unless Illinois laborers are not available, or are incapable of performing the particular type of work involved, which the contractor must certify with the LPA.

15. ILLINOIS HUMAN RIGHTS ACT (775 ILCS 5/)

In the event the Contractor's non-compliance with the provision of the Equal Employment Opportunity Clause, the Illinois Human Rights Act or the Applicable Rules and Regulations of the Illinois Department of Human Rights ("Department"), the Contractor may be declared ineligible for future contracts or subcontracts with the State of Illinois or any of its political subdivisions or LPA corporations, and the contract may be cancelled or voided in whole or part, and such other sanctions or penalties may be imposed or remedies invoked as provided by statute or regulation.

16. WAIVER OF WORKERS COMPENSATION/OCCUPATIONAL DISEASE EXPENSE REIMBURSEMENT

In the event the Contractor requires a change of the subcontractor(s) identified, a written request from the Contractor and a written approval from the LPA is required.

Notwithstanding written consent to subcontract approved by the LPAs, the Contractor shall perform with the Contractor's own organization, work amounting to not less than fifty (50%) percent of the total contract cost, and with materials purchased or produced by the Contractor.

The subcontracting, if any, shall be done by the Contractor in accordance with applicable Article 108.01 of the IDOT Standard Specifications.

Failure to identify subcontractors could result in disqualification.

20. SILENCE OF SPECIFICATIONS

ANY and ALL changes to these specifications are valid only if they are included by written Addendum to All Bidders. No interpretation of the meaning of the plans, specifications or other contract documents will be made orally. Failure of any bidder to receive any such addendum or interpretation shall not relieve the bidder from obligation under this bid as submitted. All addenda so issued shall become part of the bid documents. Failure to request an interpretation constitutes a waiver to later claim that ambiguities or misunderstandings caused a bidder to improperly submit a bid.

The actual quantities ordered by the LPAs may be fewer or greater than those listed depending on the conditions of the LPAs' roadways during a particular year. Numbers of general locations (e.g., roadways) are offered for only the year 2016. The number of locations for the years 2017 and 2018 may differ from the number of locations for the year 2016. The number of locations for the years 2017 and 2018 should be similar to those listed for 2016, and should be reduced or increased proportionally where the quantities for feet of cracks and pounds of sealant are fewer or greater than those listed for the year 2016.

3. SWEEPING AND COLLECTION OF DEBRIS

The Contractor shall mechanically sweep all streets with a street sweeper or equipment agreeable to the Engineer within 48 hours after it has been crack sealed. The removal of any excess debris blown or deposited onto parkways, sidewalks, walkways or driveways shall be included. Upon completion of sweeping and collection of debris, all roadways and adjacent areas must present an appearance that is satisfactory to the Engineer. This work will not be paid for separately and shall be included in the cost of the overall contract work.

4. INFORMATION TO BE PROVIDED BY THE LPA

For each year of the contract, each LPA will supply the Contractor with one 11" x 17" map of its territory that highlights the locations for which the Contractor will provide crack sealing services. Each LPA will also supply the Contractor with a list of the locations within its territory for which the Contractor will provide crack sealing services. Each list will show the estimated quantity for each location.

5. SCHEDULING OF WORK

Each year, the LPAs shall schedule their work with the Contractor independently of each other. The Contractor will not be required to provide crack sealing services simultaneously in each LPA; however, it shall complete the total volume of crack sealing services required by each LPA within the term specified herein.

The Contractor shall provide crack sealing services for the LPAs within the construction hours allowed by their local ordinances. For example, for Downers Grove, the construction hours will be on weekdays, 7:00 am to 7:00 pm. The LPAs may prohibit the Contractor from working on weekends or holidays. For DuPage County, the local ordinance will be the municipality where the work is being performed.

6. CONTRACTOR'S PERSONNEL

While working for the LPAs, the Contractor shall be responsible for ensuring that all personnel are properly identified to minimize customer concerns regarding the presence of unusual utility workers on roadways, in parkways, etc. Specifically, the Contractor's employees shall display badges with the Contractor's business name and/or logo on it or a standard uniform with the Contractor's business name and/or logo on it.

7. CONTRACTOR'S EQUIPMENT

Each LPA may provide the Contractor space at its Public Works or other LPA facility to store equipment while the Contractor is providing the LPA crack sealing services. In exchange for storage space, the Contractor shall identify the discount to each LPA if space is provided. Access to facilities shall be established with the successful bidder.

8. LANE/ROADWAYS CLOSURES

The Contractor shall close lanes/roadways in the areas in which it is providing crack sealing services for the LPAs. The Contractor shall close lanes per the specifications of the most current version of the "Manual on Uniform Traffic Control Devices" as issued by the Federal Highway Administration and adopted by the State of Illinois. While performing crack sealing services for the LPAs, the Contractor will limit lane/road closures to the greatest extent possible, being particularly cognizant of the effects of such closures on roadways that experience high traffic volumes. Lane closures on roads with higher traffic volumes, as determined by the Engineer, shall be limited to one lane at a time, with flaggers and traffic control devices used as necessary. Access to all properties shall remain open at all

times unless work is taking place in the immediate vicinity, requiring that access be restricted on a temporary basis. Full access must be restored immediately upon the completion of any work blocking said access, and full access must be restored to all properties over weekends and legal holidays unless approved by the Engineer. Special consideration to hours and location of work near schools shall be made to allow for full and safe access during normal student arrival and departure schedules. The Contractor is responsible for all traffic control and this item is incidental to the cost of the overall contract work.

9. DELIVERY OF SERVICES/GOODS

The Contractor shall deliver services at the locations specified by each LPA on the map and list of locations that the LPA provides to the Contractor.

10. TERM

The term of this contract shall be one year with two optional one-year renewals. Each year, the Contractor shall provide services for each LPA per the schedule that each LPA coordinates with the Contractor. The Contractor will begin providing services for the LPAs in spring/summer of each year, and will complete these services by September 30 of each year. The completion date may be extended for a LPA if the extension is mutually agreed by the LPA and the Contractor.

11. ADVANCE NOTICE TO RESIDENTS

The Contractor, at its sole expense, shall develop, print, and distribute to all affected residences a standardized door hanger, letter, or postcard (pre-approved by the LPAs) that will provide advance notice to these residences of the crack sealing operations the Contractor will undertake. Affected residences will include all residences on each of the blocks on which the Contractor will provide crack sealing services for the LPAs. The Contractor shall provide residences notice no later than 72 hours prior to the undertaking of its crack sealing operations on their block. The LPAs, at their discretion, may furnish the Contractor with a sample document deemed suitable for notification.

In addition, the Contractor shall post suitable advance notice signs (at least 24 hours but not more than 48 hours prior to performing work in that location) on streets or bike paths scheduled to be crack sealed and/or seal coated. Signs are to be posted in both parkways, at intersection corners, and every 300 feet, facing all directions of travel. The Contractor, immediately upon completion of work on each street, shall remove all such signs. The sign used must indicate the type of work that is planned for the area (i.e. crack sealing or seal coating), the dates it is planned for, and "no parking" (if applicable), or any other language approved/required by the LPA.

The Contractor is responsible for all advance notice to residents and this item is incidental to the cost of the overall contract work.

12. PRICING

Bidders will provide pricing for this contract per pound of crack sealant, or per square yard of seal coat, to be provided (installed per the specifications contained herein). A bidder's per-pound or per-square yard pricing will include all of its costs, including its costs for materials, installation services, sweeping/clean-up, the providing of advance notice about these services to residences, and any other incidental items of work included in this contract.

3. Percent Fibers. The fiber-asphalt mixture shall contain 5.0 ± 0.5% by weight of fibers.

The crack filler, in its final form, shall meet the following requirements when sampled and heated to the manufacturer's recommended maximum heating temperature according to ASTM D 5167.

Test	Value
Cone Penetration @ 77 °F (25 °C), ASTM D 5329	10-35 mm
Softening Point, ASTM D 36	175 °F (79 °C) min.

Application Temperature	350°F (177 °C) min.

Equipment: Equipment shall be according to the following:

Oil Kettle. The crack filler shall be heated in an oil jacketed double wall kettle equipped with an agitator (reversing rotary auger action) and separate thermometers for the oil bath and mixing chamber. The unit shall also be equipped with a reversible hydraulic 2-in. (50-mm) hot asphalt pump and a recirculating pump to circulate the oil bath. The

kettle shall be capable of operating at temperatures between 248 and 293 °F (120 and 145 °C).

Construction Requirements: The fiber-asphalt filler shall be applied only when the joints and cracks are dry and free of dirt, vegetation, debris and loose filler. All joints and cracks to be filled shall be blown clean with an air compressor equipped with a lance using compressed air. The cleaning operations shall be kept close to the filling operations to prevent debris being carried back into the joints and cracks before filling.

The fiber-asphalt filler shall be applied using a pressurized wand delivery system with such devices as necessary to fill the cracks and form a nominal 0.125 in. (3 mm) thick by 3 in. (75 mm) wide overseal band centered so that the center of the 3 in. (75 mm) wide band is within 1 in. (25 mm) of the crack. The fiber-asphalt shall be applied taking care to not use excessive material in either thickness or location.

The Engineer will determine the extent that fine cracks are filled. Care shall be taken to not place filler on top of pavement markings, manholes and drainage castings.

The ambient temperature during filling shall be above 40 °F (4 °C) and below 85 °F (29 °C). The filler must cure before being opened to traffic. In order to more quickly open the road to traffic, the Contractor may use fine sand, mineral filler, or Portland cement to dust the filler at no additional cost to the LPA.

Method of Measurement: Crack filling will be measured for payment in pounds of fiber-asphalt used.

Basis of Payment: This work will be paid for at the contract unit price per **POUND** for **FIBER-ASPHALT CRACK SEALING ASPHALT PAVEMENT**. Cleaning of cracks will not be paid for separately.

SEAL COAT

This work shall be in accordance with applicable portions of Sections 403 and 1004 of the Standard Specifications and the following provisions.

Preparation of Pavement:

All areas to be sealed shall be thoroughly cleaned. All hardened accumulations of grease, gum, clay or other foreign matter shall be loosened by scraping and wire brushing. The surface is to be blown clean to remove loosened debris, sand, loose aggregates, dust and any other foreign matter. Spot flushing may be necessary to remove other substances. Oil and grease shall be scraped and/or burned off. Any existing thermoplastic markings shall be removed prior to seal coat application. Oil deeply impregnated in the surface shall be sealed with shellac, "Petro-Seal" primer or other suitable sealer(s) prior to applying sealcoat.

Once the pavement area has been properly prepared, including traffic control, cleaning, patching, crack filling etc. the Contractor shall begin seal coating operations.

Materials:

Two (2) coats of Polymer Modified MasterSeal mineral reinforced asphalt emulsion from Sealmaster Corporation or approved equal by the engineer shall be used. The sealer material furnished under this specification shall be certified by the manufacturer to meet composition and performance requirement, one coat squeegee, and one coat spray.

Sand shall be clean, dry silica free from foreign matter. It shall have an AFS rating of 50 to 90 with no more than 2% retained on a No. 30 U.S. sieve or coarser, no more than 14% passing a No. 140 U.S. sieve, and no more than 3% passing a No. 200 U.S. sieve. Examples: Wedron #730, Ottawa #F-80, Manley #85, or equivalent. The rate of sand per unit of sealer material shall be in accordance with the manufacturer's specifications.

Polymer Modified MasterSeal mineral reinforced asphalt emulsion or approved equal shall be applied according to the manufacturer's specifications. Hand squeegees and brushes shall be acceptable in areas where practicality prohibits the use of mechanized equipment.

Basis of Payment: This work shall be measured and paid for at the contact unit price per **SQUARE YARD** for **SEAL COAT BIKE PATH** or **SEAL COAT PARKING LOT**, which price shall be payment in full for all work specified herein.

PARKING LOT PAINT PAVEMENT MARKING
