The Village's Fleet Team, consisting of representatives from the Village Manager's Office, Finance, Public Works, Police and Fire Departments evaluated the need to replace these vehicles. All Village vehicles and equipment are targeted for replacement according to useful lifecycle replacement criteria. These criteria include age, usage, condition, repair costs, fuel efficiency and environmental impact. The Fleet Team reviewed the vehicles scheduled to be replaced and determined that the criteria for replacement were met.

Police Vehicles

A typical patrol car has a useful life of 4-6 years depending on use. For 2019, four police vehicles are scheduled for replacement, two that are used by Evidence Technicians and two by Community Service Officers.

Evidence Technicians are currently driving Chevy Tahoes. Due to the amount of gear required, it was requested that a vehicle with more storage capacity be purchased. Ford has released a 4 door, Pursuit Rated F-150 which will have a bed cover and adequate space for required gear.

The Community Service Officers are currently driving Ford Crown Victorias and the recommended replacement vehicle is a Ford plug in hybrid sedan. These vehicles are capable of running 26 miles on electricity without charging and the average driving distance per shift is 30 miles. This recommended vehicle meets the needs of the users and is in line with the Village's goal to operate a greener fleet. The following table provides additional information regarding the existing police vehicles scheduled to be replaced:

Veh.#	Year	Make	Model	Miles (Nov 2018)	2017-18 Repairs / Maintenance Costs (12 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2017-18
801	2013	Chevy	Tahoe	103,533	\$3,943.80	\$14,667.36	26.88%
802	2013	Chevy	Tahoe	100,682	\$1,922.03	\$10,504.82	18.29%
814	2007	Ford	Crown Victoria	61,998	\$2,374.06	\$15,055.24	15.76%
836	2011	Ford	Crown Victoria	107,917	\$5,084.62	\$24,103.00	21.09%

Fire Vehicles

Ambulance

A typical ambulance has a front line service life of 6 years. The Village operates three front-line ambulances with an additional two ambulances that operate as reserve vehicles. The reserve ambulances are older units that are put in service when a front-line unit is out of service for maintenance. The current reserve ambulances, 2010 International 4300's, units 938 and 939 are 10 years old. 939 has needed \$16,155 more in repairs over its lifetime compared to its sister truck. 939 is proposed to be traded in to Foster coach for a value of \$8,500. Unit 945, current front line ambulance, is proposed to be moved to reserve status. This unit will be six years old when the new ambulance is put into service. The proposed new ambulance will be the same make and model as our current front line ambulances 915 and 917, which have been excellent vehicles, with very little downtime. The following table provides additional information regarding the vehicle scheduled to be replaced, and the vehicle that will be removed from front line service and put into reserve status:

Veh.#	Year	Make	Model	Hours (Nov 2018)	2016-18 Repairs / Maintenance Costs (24 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2016-18
939	2010	International	4300	7,057	\$5,231.33	\$80,655.85	6.48%
945	2013	Freightliner	M170	5,332	\$7,949.24	\$37,443.85	21.22%

Battalion Chief Vehicle

The Village operates two Battalion Chief vehicles. One front line, unit 933, and one reserve, unit 923. The current reserve unit is 16 years old and has reached the end of its useful life. The Fleet and Fire Department worked together to find the optimal replacement vehicle and identified the recommended Ford Expedition. This vehicle offers the space needed to accommodate the gear and command space required for the Battalion Chief vehicle, while being the most affordable. The following table provides additional information regarding the vehicle scheduled to be replaced, and the vehicle that will be removed from front line service and put into reserve status:

Veh.#	Year	Make	Model	Miles (Nov 2018)	2016-18 Repairs / Maintenance Costs (24 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2016-18
923	2003	Chevrolet	Tahoe	85,553	\$7,306.79	\$37,976.33	19.24%
933	2008	Chevrolet	Suburban	72,061	\$3,655.23	\$27,345.23	13.36%

Public Works Vehicles

One Ton Trucks

The Village operates four Ford F-450 one tons that are used by for multiple purposes in Public Works. These vehicles include one with a snow plow package, one with a crane truck, one with a lift gate, and one operated with a chipper. These four vehicles have reached the end of their useful life. Fleet staff reviewed the needs of the user groups to determine the best replacements for each truck. The recommended trucks will run on B-20, and will have factory anti-idle shutdown systems installed with supplemental heaters. This is in line with the Villages effort to create a greener fleet.

Combination Jetter / Vacuum Truck

This vehicle is assigned to the Drainage Division and is used daily for the cleaning and maintenance of the Villages drainage system. It is also used by the Water Division during main breaks, hydrant replacements and other work that demands careful hydro-excavation of areas to avoid costly damage to underground utilities. In the event of an emergency trench rescue, the Fire Department may also call for the use of the unit. The current unit, 237, has severe corrosion and significantly large repair costs and out of service time over its lifetime. To determine the best fit for a replacement three different machines were tested and put to use by staff. The selected vendor, R.N.O.W Inc., has offered \$50,000 in trade value for the current unit.

Veh.#	Year	Make	Model	Hours (Nov 2017)	2017-18 Repairs / Maintenance Costs (12 mo.)	Life-to-Date Repairs / Maintenance Costs	Repairs / Maintenance Cost % in 2017-18
212	2006	Ford	F-450	4,246	\$3,811.45	\$49,866.00	7.64%
213	2006	Ford	F-450	4,533	\$2,109.17	\$23,574.79	8.95%
216	2006	Ford	F-450	6,360	\$2,085.29	\$35,063.55	5.95%
218	2007	Ford	F-450	3,442	\$2,972.31	\$43,505.54	6.83%
237	2007	Sterling	Vactor 2100	3,707	\$17,653.90	\$112,628.73	15.67%

These purchases are recommended to be made through a cooperative purchasing contracts in accordance with the provisions of the Village Purchasing Policy. The Ford F-150's, Ford F-450's, Ford F-550's, and Ford Expedition would be purchased through the North West Municipal Council's Suburban Purchasing Cooperative. Pricing for the Peterbilt 348, and the Ford Plug-in Hybrid is provided through the Sourcewell Cooperative Purchasing Program for governmental entities (formerly NJPA.)
