RECOMMENDATION

Approval on the April 9, 2019 Consent Agenda.

BACKGROUND

The Illinois Environmental Protection Agency (IEPA) instituted Clean Construction and Demolition Debris (CCDD) regulations in 2008 which affect the disposal of debris from construction sites. To comply with these regulations, representative soil samples are required to be taken and analyzed from construction sites and an engineer's certification is needed stating that the soil is uncontaminated.

Five consultants were previously pre-qualified for environmental engineering services through a Request for Qualifications. Proposals for this work were solicited from the pre-qualified

consultants, with all five firms responding. After reviewing the proposals, Huff & Huff, Inc. was identified as the firm that best meets the needs of the Village and proposed the lowest fee for this work. Huff & Huff, Inc. has performed similar work for the Village within the past three years with satisfactory results.

26. SUBLETTING OF CONTRACT

- 26.1 No contract awarded by the Village shall be assigned or any part subcontracted without the written consent of the Village Manager. In no case shall such consent relieve the Contractor from their obligation or change the terms of the contract.

All approved subcontracts shall contain language which incorporates the terms and conditions of this Contract.

27. TERM OF CONTRACT

Village of Downers Grove – 2019 CCDD Consulting Services - Various Projects

27.1 This Contract may be extended no more than twice for subsequent annual periods (two annual extensions) by mutual agreement of both parties, providing such agreement complies with Village purchasing policies and the availability of funds. However, if this Contract is not one that is subject to extension, such information will be available in the detailed specifications or special conditions section.

28. TERMINATION OF CONTRACT

28.1 The Village reserves the right to terminate the whole or any part of this Contract, upon written notice to the Contractor, for any reason and/or in the event that sufficient funds to complete the Contract are not appropriated by the Village.

28.2 The Village further reserves the right to terminate the whole or any part of this Contract, upon written notice to the Contractor, in the event of default by the Contractor. Default is defined as failure of the Contractor to perform any of the provisions of this Contract or failure to make sufficient progress so as to endanger performance of this Contract in accordance with its terms. In the event that the Contractor fails to cure the default upon notice, and the Village declares default and termination, the Village may procure, upon such terms and in such manner as the Village may deem appropriate, supplies or services similar to those so terminated. The Contractor shall be liable for any excess costs for such similar supplies or services unless acceptable evidence is submitted to the Village that failure to perform the Contract was due to causes beyond the control and without the fault or negligence of the Contractor. Any such excess costs incurred by the Village may be set-off against any monies due and owing by the Village to the Contractor.

29. BILLING & PAYMENT PROCEDURES

29.1 Payment will be made upon receipt of an invoice referencing Village purchase order number. Once an invoice and receipt of materials or service have been verified, the invoice will be processed for payment in accordance with the Village payment schedule. The Village will comply with the Local Government Prompt Payment Act, 50 ILCS 505/1 et seq., in that any bill approved for payment must be paid or the payment issued to the Proposer within 60 days of receipt of a proper bill or invoice. If payment is not issued to the Proposer within this 60 day period, an interest penalty of 1.0% of any amount approved and unpaid shall be added for each month or fraction thereof after the end of this 60 day period, until final payment is made.

29.2 The Village shall review in a timely manner each bill or invoice after its receipt. If the Village determines that the bill or invoice contains a defect making it unable to process the payment request, the Village shall notify the Contractor requesting payment as soon as possible after discovering the defect pursuant to rules promulgated under 50 ILCS 505/1 et seq. The notice shall identify the defect and any additional information necessary to correct the defect.

29.3 If this Contract is for work defined as a “fixed public work” project under the Illinois Prevailing Wage Act, 820 ILCS 130/2, any contractor or subcontractor is required to submit certified payroll records along with the invoice. No invoice shall be paid without said

- 31.2 If the Proposer fails to meet the foregoing standard, Proposer will perform at its own cost, and without reimbursement from the Village, the professional services necessary to correct errors and omissions caused by Proposer's failure to comply with the above standard and reported to Proposer within one (1) year from the completion of Proposer's services for the Project.
- 31.3 For Professional Service Agreements (i.e. Engineer, Consultant): Project site visits by Proposer during construction or equipment installation or the furnishing of Project representatives shall not make Proposer responsible for: (i) constructions means, methods, techniques, sequences or procedures; (ii) for construction safety precautions or programs; or (iii) for any construction contactor(s') failure to perform its work in accordance with contract documents.

36.2 Change orders for public works projects which authorize an increase in the contract price that is 50% or more of the original contract price or that authorize or necessitate any increase in the price of a subcontract under the contract that is 50% or more of the original subcontract price must be resubmitted for bidding in the same manner by which the original contract was bid. (50 ILCS 525/1)

37. SEVERABILITY OF INVALID PROVISIONS

37.1 If any provisions of this Contract are held to contravene or be invalid under the laws of any state, country or jurisdiction, contravention will not invalidate the entire Contract, but it will be construed as if not containing the invalid provision and the rights or obligations of the parties will be construed and enforced accordingly.

38. NOTICE

38.1 Any notice will be in writing and will be deemed to be effectively served when deposited in the mail with sufficient first class postage affixed, and addressed to the party at the party's place of business. Notices shall be addressed to the Village as follows:

45.0 PROPOSAL REVIEW and SELECTION PROCESS

Unless the Village exercises its right to reject all proposals, the contract will be awarded to that responsible Proposer(s) whose Proposal(s), conforming to the Contract Documents, will be most advantageous to the Village, price and other factors considered.

All responses to this RFP that meet the submittal requirements and the submittal deadline will be evaluated as described below.

45.1 Step One:

The Village will review and evaluate each firm’s proposal based on the requirements for submittal described above. Weighting of the evaluation will include but not be limited to the following:

- Approach to organizing and understanding of the project
- Responsiveness to requirements, terms, timeliness and conditions for project performance
- Fee

(Please do not include information or materials that are not relevant to or requested by this solicitation.)

45.2 Step Two:

Village staff will recommend a firm based on the entire submittal package. The Village reserves the right to determine the criteria for and select the best overall qualified firm, in the Village’s opinion, to execute the scope of work on behalf of the Village. **The Village may elect to split the scope of work and award a contract to more than one ENGINEER. As**

Village of Downers Grove – 2019 CCDD Consulting Services - Various Projects

such, “not to exceed” pricing for each specific project shall be stand alone and shall not rely on the ENGINEER being awarded the entire scope of work.

45.3 Step Three:

The Village will send a Notice of Award (NOA) letter to the selected firm, followed by a Notice to Proceed (NTP) for each individual project location.

46.0 PERIOD OF SERVICE

46.1 It is anticipated that notice of award will be given on or before April 2, 2019 and that the project specific services listed in section 41.3 will be complete by **May 10, 2019**. No additional working days will be granted by the Village for any reason, in that sufficient time is provided to offset any working days lost due to adverse weather conditions. Any costs associated in expediting laboratory testing to meet this deadline shall be borne by the ENGINEER with no additional compensation allowed.

46.2 If the Village exercises its option to terminate this agreement upon default by the Proposer, the Proposer shall cause to be delivered to the Village all drawings and field notes, or electronic data files, if any, with the understanding that all such material becomes the property of the Village. The Proposer shall be paid the total maximum cost as set forth above, less the cost incurred by the Village in completion of the work.

47.0 SCHEDULE OF PRICES

47.1 The “not to exceed” price for each project shall be completed by the proposer in the schedule below. **The prices below for each project or group of projects shall include, per section 41.2, a 50% contingency for additional testing, if required. For example, if the Proposer’s actual proposed fee for “Project Location X” is \$1,000.00, the Proposer’s not-to-exceed price shall be written as \$1,500.00, which includes the mandatory 50% contingency.**

In addition, a 20% overall contingency, to be used as needed on these or other projects as deemed necessary by the Village, shall be included in the total contract “not to exceed” price.

Re: Response to Request for Proposal (RFP)
2019 CCDD Consulting Services – Various Projects
Proposal No. 81.PB00004.20

Dear Mr. Tock:

Huff & Huff, Inc. (H&H), a subsidiary of GZA GeoEnvironmental, Inc. (Consultant) is prepared to offer professional engineering services to the Village of Downers Grove (Client) regarding assistance with soil management and PE/PG Certification for Clean Construction and Demolition Debris (CCDD) or soil-only facilities.

Based on our review of the abridged versions of the potentially impacted property (PIP) determination forms included in Attachment A of the Request for Proposal (RFP) Packet, Consultant understands we are to rely upon the analytical testing program recommended by True North, which is reflected in the costs summarized in this Proposal.

Consultant anticipates the completion of LPC-662 (no PIPs identified and pH only sampling) for four (4) project areas, and the completion of Form LPC-663 (PIPs identified with contaminant specific sampling) for 12 of the project areas. The compiled disposal documentation, including project corridor specific due diligence and laboratory analyses, will be provided to Client and/or its subcontractors to present to CCDD facilities for acceptance of spoils derived from various projects. It is the understanding of Consultant that due diligence has been conducted and that Client will submit the existing data to Consultant for the completion of soil disposal documentation. Additional due diligence activities are not included in the scope of this proposal.

Costs have been prepared in accordance with the RFP documents, including compliance with the Illinois Prevailing Wage Act (820 ILCS 130/1 *et seq.*), a 50% contingency fee for any additional laboratory analytical testing which may be required to define the limits of potential contaminants, and a 20% overall contract contingency.

Refer to the RFP Packet for a schedule of unit prices. The firm's 2019 Fee Schedule has also been included in this Response to RFP.

 Project No. 81.PB00004.20
 Village of Downers Grove, DuPage County, Illinois
 2019 CCDD Consultant Services - Various Projects Page | 2

We have prepared costs for the proposed work in two formats. Costs have been provided on a Project-by-Project basis, as specified in the RFP. These costs are reflected in the RFP documents under Section 47.0 SCHEDULE OF PRICES.

However, we have prepared a second set of costs which assume the completion of all of the Village Various Projects outlined in the Request for Proposal (RFP) documents under a single work order. The reasoning behind preparing a second set of costs is because significant cost savings are possible if all of the projects are completed under a single mobilization event, rather than fifteen individual mobilization events. This is largely due to personnel, driller, and traffic control mobilization costs. The Projects and our approach are summarized as follows:

Project #	Disposal Form	Project Description
1.	LPC-663	P-017 Forest North Parking Lot Reconstruction
2.	LPC-663	S-010 New Sidewalk Program
3.	LPC-663	SW-07018B Storm Sewer Repl. (Highland)
4.	LPC-663	SW-07018C Storm Sewer Repl. (Prospect)
5.	LPC-663	SW-08017C Drainage Improvements (Elm/Earlston)
6.	LPC-663	SW-08017K Drainage Improvements (Linden)
7.	LPC-662	SW-08719 Indianapolis Drain. Road Sidewalk Impr.
8.	LPC-662	WA-028 Watermain Replacement (Northcott)
9.	LPC-663	WA-028 Watermain Replacement (Wisconsin)
10.	LPC-662	WA-028 Watermain Replacement (Almond)
11.	LPC-662	WA-028 Watermain Replacement (Pomeroy)
12.	LPC-663	WA-028 Watermain Replacement (Jefferson)
13.	LPC-663	WA-028 Watermain Replacement (Ogden)
14.	LPC-662	WA-028 Watermain Replacement (Wilcox)
15.	LPC-663	WA-028 Watermain Replacement (Black Oak)
16.	LPC-663	WA-028 Watermain Replacement (Brook)

This proposal presents the grouped project approach in Section 1, and the fee associated with each task are presented in Section 2 for the grouped project approach. Note that the grouped project approach described would also be applicable if a group, but not all projects, were to be awarded, as potential costs savings associated with driller and traffic control services would still be achieved.

It is understood that all work and reports must be completed by no later than May 10, 2019, assuming the Project is awarded by no later than April 2, 2019. H&H can meet the proposed deadline as discussed below.

1. PROJECT SCOPE

Task 1 – Soil Sampling

Consultant will prepare a Health & Safety Plan (HASP) for the planned work. Consultant will mobilize to the site to mark boring locations in the field and conduct a brief site visit to confirm PIPs and assess the

Project Area for potential hazards. Consultant will submit address locations to driller for the completion of utility locate requests through the JULIE One-Call system.

After utilities have been marked, Consultant will mobilize to the site and complete soil sampling at all of the project areas. This proposal includes costs for up to two days of GeoProbe® drilling for the completion of thirty-four (34) soil borings.

Samples at each location will be collected continuously and screened with a photoionization detector (PID) for volatiles. Soil pH will be measured in the field so step-out borings can be completed at the same time if elevated pH results are encountered and avoid analytical costs where elevated pH is encountered. This approach will also allow us on the same mobilization to better define the extent of elevated pH on the same day. Soil boring logs will be completed for each boring advanced under this sampling program.

Analytical costs and costs for the driller have been included under this task. Analytical costs are based on the information provided in Appendix A, and include:

- pH (34 samples)
- Metals (total 8 RCRA) (23 samples)
- BTEX (5 samples);
- VOCs (14 samples);
- PNAs (18 samples);
- SVOCs (6 samples);
- PCBs (1 samples)
- 5035 preservation kits (19 samples)

Rush laboratory processing fees are **not** included in this proposal and are not considered necessary to complete the scope of work by the required deadline (no later than May 10, 2019), assuming the project is awarded by no later than April 2, 2019.

Should soils be encountered which are not appropriate for CCDD disposal, Client will select a preferred Subtitle D Sanitary Landfill for disposal of the material. Consultant will complete all paperwork for disposal permitting to be signed by Client. Landfill permitting includes waste characterization RCRA “Green Sheet” analytical testing. Costs for landfill permitting are not specifically calculated in this proposal, but are understood to be included in the calculated 50% laboratory contingency and 20% overall contingency costs for the Project, and therefore are included in the scope of this proposal.

Huff & Huff, Inc. 2019 Fee Schedule

This statement is being furnished to you in the interest of enhancing your understanding of our billing policies and procedures. Each employee is assigned an hourly rate and records his or her time for each project. Each invoice identifies each person that charged time to the project, hours spent and total cost for each individual. All time spent traveling on client business is included in the time charged to a project.

The Project Manager responsible for preparation of your statement reviews the time records before rendering a bill for adjustments in the statement where appropriate in the judgment of the Project Manager. For example: time may be adjusted downward for duplication of effort, for training time beyond the normal adjustments for technical experience already factored into our hourly rates, or in other situations where it would not be fair to charge you for the full time spent on your project.

Listed below is our 2019 Fee Schedule. These rates are adjusted annually, effective March 1 of each year, to reflect changes in salaries, overhead, and the experience of individuals. Overtime is charged at the same hourly rates listed below.
