2022 Parkway Tree Pruning

The Village's parkway trees are pruned on a five year cycle to improve tree structure, enhance tree vigor, increase a tree's aesthetic appeal, and maintain safe conditions for all motorists and pedestrians as they move through the street corridor or visit Village properties. This work also reduces storm damage and costs when storms occur.

A map of the areas where parkway tree pruning is planned for 2022 is below. This work is expected to begin the week of January 17, 2022 and signs will be posted in advance of the areas where pruning will occur. Information about the pruning program will be mailed to over 3050 addresses within the 2022 work areas. Information is also on the forestry section of the Village's website, including the pruning video.
