Re: DMMC Annual Dues Invoice and Value Statement

The DuPage Mayors and Managers Conference greatly appreciates your continued membership. Enclosed you will find an invoice for your community's 2022-2023 dues assessment as presented in our budget and approved on April 20, 2022.

For the past fourteen years, the Conference has not increased our membership dues rate. This year, after much deliberation, the Conference Board of Directors approved a 2% increase. The Board of Directors and staff are very aware of the fiscal pressures faced by municipalities, and the Conference continues to utilize cost-saving efforts in order to provide important member services in an affordable and sustainable manner.

To assist our members in documenting the benefits of Conference membership, we continue to provide the attached Value Statement. As in past years, the Value Statement lists the many services received by Conference members, quantifying the value where possible (Exhibit 1), and listing the qualitative benefits in other cases (Exhibits 2, 3, and 4). In addition, and in accordance with directives in our 2018-2021 Strategic Plan, the document also outlines specific examples of the Conference's fiscal responsibility (Exhibit 5), quantifies the fiscal benefits to each member community and reported grant receipts by each municipality for grants on which the Conference helped inform members (Exhibit 6), and lists the projects and meetings taken on by Conference staff and representative municipal officials, saving each municipality from having to use time and resources to participate directly (Exhibit 7).

We hope you will find this information useful and invite your questions and comments.

Thank you again, we look forward to a productive 2022-2023!

Sincerely,

Suzette Quintell
 Executive Director
