

## **rRemarks Data for June 21st, 2022 Village Council Meeting**

**Agenda Section:** Consent

**Agenda Item:** K. MOT 2022-9501 A motion approving a contract with JesseJames Creative, New York, New York, for the redesign of the Village's website and the implementation of a content management system in an amount of \$80,500.00, which includes hosting services for one year.

**Commenter:** John Schofield, Downers Grove

**Comment:** I have read the online material, and I have a specific question: Will the current online Community Response Center continue as is, or be replaced by something else. if replaced, will all of the current functionality be carried forward, or will some be omitted? What about continuity, what will happen to the current history?
