C. Report: Traffic Calming Petition File #3-25 to Change Stop Control at Park Avenue and Summit Street

Commenter: Lauren Linder

Comment: Please add stop sign to the intersection of Park and Summit. Our children play here and have been scared on more than 1 occasion to cross on their own as people don't slow down.

C. Report: Traffic Calming Petition File #3-25 to Change Stop Control at Park Avenue and Summit Street

Commenter: Rebecca Wasik

Comment: We are in support of park and summit to become a 4 way stop due to high traffic in this area and a large number of kids in this neighborhood.

C. Report: Traffic Calming Petition File #3-25 to Change Stop Control at Park Avenue and Summit Street

Commenter: Sarah Bogaczyk

Comment: I've lived in Randall Park for 15 years and experienced the traffic flow down my street, Park Ave. I think the neighborhood would benefit from a stop sign at Park and Summit to better pace the traffic flowing into the park area and provide a safer crossing for kids heading to the park and on their walk to school. The impact to drivers seems minimal and potential benefit to pedestrians seems incredibly valuable. Thank you for your consideration.

C. Report: Traffic Calming Petition File #3-25 to Change Stop Control at Park Avenue and Summit Street

Commenter: Carter Baum

Comment: I support this measure. As a resident who lives near this corner, we watch countless vehicles and delivery trucks speed through this busy intersection on a daily basis. With its proximity to Randall Park, kids and families are constantly around and it is a major safety issue waiting to happen.

Commenter: Matthew Novak

Comment: Greetings Mayor and Village Council. I ask that you support the Traffic & Parking Commission's recommendation to approve a 4 way stop at the intersection of Park/Summit, for the reasons aforementioned by the petitioner, as well as the TaP commission. Thank you for your service to the community.

Commenter: Sam Vlahos

Comment: I support the petitioner's proposal in REP 2025-10982 to change stop control at the corner of Park and Summit to an all way stop. We are located next to a massive park and there are cars constantly flying down both sides of park that are not neighbors. But aligned with games at the park
