Background

As part of the 2025-2027 Long Range Plan, the Village Council identified *Develop a Public Art Program* as a Priority Action Item. The project consists of creating a public art program to address program management, governance, funding, project selection, community engagement and program evaluation. The initial phase of the project consists of a Village operated program focused on installing art in Linda Kunze Plaza and selected downtown flexible amenity areas.

In November, 2025 the Village Council established the Guiding Principles to direct the art installation (included at the end of this report).

In February, 2026 the Village Council directed staff to issue a Request for Proposals for this project. The RFP was issued in March. Nine compliant proposals and one incomplete proposal were received including three from firms that manage public art programs, six from artists and one from a local not-for-profit seeking the installation of a statue of a specific former Downers Grove resident.

Staff duly considered all proposals and interviewed four of the respondents. Staff recommends execution of the attached contract with Sculpture Milwaukee, which includes the following key terms:

Sculpture Milwaukee will oversee the selection, coordination and installation of four sculptural artworks at Linda Kunze Plaza and three downtown flexible amenity areas.

Sculpture Milwaukee will participate in up to two community visioning sessions and up to two stakeholder meetings to provide guidance on the art installations.

Sculpture Milwaukee will select the art installations which will consist of newly commissioned sculptures and acquired existing sculptures.

Sculpture Milwaukee will review and consider artists presented to them by the Village for consideration.

Sculpture Milwaukee will present the final art installations to staff for review and approval.

Sculpture Milwaukee will lead and participate in programming, marketing and communications as directed by the Village to promote the art installations.

Sculpture Milwaukee will adhere to a project schedule which calls for the installations to be completed by May 31, 2027.

III. DETAIL SPECIFICATIONS

Request for Proposals:

Selection and/or Commissioning of Public Art for Downtown Flexible Amenity Areas and Linda Kunze Plaza

Background

The Village of Downers Grove has a vibrant downtown with a variety of shops, restaurants, entertainment destinations, and one of the busiest commuter train stations in the region. Downtown Downers Grove is also home to several special events including the Fine Arts Festival, Rotary Grove Fest, and the Downtown Downers Grove Market. Between the many people that live in and around the downtown area, and downtown being a destination, hundreds of thousands of people visit, shop, work, and dine in downtown Downers Grove annually.

In 2025, the Village completed [Guiding DG](#), a significant community planning effort that describes a vision of Downers Grove for decades to come. Across the Guiding DG suite of plans are several goals and recommendations that are designed to further enhance and activate public spaces within the downtown area. More specifically, the [Guiding DG Streetscapes Plan](#) provides a detailed vision, including concept drawings, that will guide the installation of new Flexible Amenity Areas and a reimagined Linda Kunze Plaza that will expand public spaces for outdoor dining, gathering, additional landscaping, signage, and *public art*.

Locations

The initial phase of construction for projects identified in Guiding DG Streetscapes Plan will commence in 2026 and include Flexible Amenity Areas located on or in proximity to Main Street between Burlington Avenue and Maple Avenue, as well as the reconstruction of Linda Kunze Plaza outside the Main Street Train Station. In total, the concept plans for the locations in the 2026 phase of construction include four locations for public art:

1. Linda Kunze Plaza
2. Southeast corner of Main Street and Burlington Avenue
3. West side of Main Street between Burlington Avenue and Curtiss Street
4. Northeast corner of Main Street and Curtiss Street

Each location will include an installed foundation for the installation of artworks. The foundations will be embedded three feet (3.0') in the ground and flush with the surrounding landscaping beds. Any base for the art is to be included in the design to be affixed to the foundation. The foundation will be two and a half feet (2.5') by two and a half feet (2.5') in size.

For more information about the locations in which the public art shall be displayed, please see Exhibit A. Any person or firm desiring to submit a proposal is responsible for familiarizing themselves with the locations in which the public art is intended to be displayed.

Summary of Scope of Services

The Village is seeking a firm, organization, or artist(s) to coordinate and manage the design and installation of four art pieces for the locations listed above. This can be accomplished through the selection and procurement of existing artwork, design and fabrication of new artworks, or a combination of both processes. Selected firms or individuals are also expected to collaborate with the Village to engage the public through workshops or other strategies that have proven successful in communities implementing public art programs. The Village welcomes proposals for both single art pieces at a specified location and/or the coordination of up to all four locations.

Downtown Public Sculpture Initiative

Presented by Sculpture Milwaukee for the Village of Downers Grove

Sculpture Milwaukee (SM) will oversee the selection, coordination, and installation of four (4) sculptural artworks for the Village of Downers Grove as part of the public art initiative for the Downtown Flexible Amenity Areas and Linda Kunze Plaza. Our approach combines curatorial expertise, professional project management, and community engagement to deliver high-quality public art that reflects the character and aspirations of the community.

The proposed budget supports:

- One (1) sculpture installation in Linda Kunze Plaza
- Three (3) sculptures installed across the other preferred Downtown Flexible Amenity Area locations

Since 2017, Sculpture Milwaukee has presented more than 160 artworks across nine citywide exhibitions, activating sidewalks, parks, and plazas with free, 24/7 access to contemporary sculpture. Through these exhibitions, SM has developed a proven model for selecting, installing, and promoting public art that is both accessible and impactful.

We are long-term community advisors who work alongside municipalities and stakeholders to create meaningful cultural investments that deliver both immediate impact and lasting civic value.

Commitment to Local & Regional Economic Impact

SM prioritizes hiring regional vendors and artist-owned companies, supporting the local economy and development of new specialty workforces.

- In 2025, more than 60% of SM vendors were regionally based
- At least 40% of those vendors were located in Milwaukee or Wisconsin

By hiring regional vendors, we help accelerate regional economic growth, generate new jobs, and strengthen the creative sector workforce. Expansion in arts employment also contributes positively to overall employment and economic vitality.

Project Leadership

The project will be led by an experienced team:

John Riepenhoff, Executive Director will provide strategic leadership and oversee artist selection, municipal coordination, and overall project direction.

Amy Kaczmarek, Director of Exhibitions, will manage all logistical aspects of the project including artist coordination, artwork transportation, vendor relations, installation scheduling, and on-site implementation.

Ellen Kullerstrand, Director of Marketing & Community Engagement, will lead marketing, public relations, and community programming related to the project, ensuring the artworks are widely celebrated and integrated into the cultural life of the Village.

Project Process

I. Community Visioning and Site Understanding

Following the project award, SM will work closely with Village staff and stakeholders to review the proposed public art locations and understand the goals for the Downtown Flexible Amenity Areas and Linda Kunze Plaza. SM will attend up to two (2) community visioning sessions and up to two (2) stakeholder meetings.

Drawing on our experience producing large-scale public art exhibitions, SM will evaluate the physical landscape, pedestrian activity, and surrounding architectural context to identify artworks that are appropriate in scale, material, and visual presence for each site. Based on this analysis, our curatorial team will develop a selection of potential sculpture options drawn from our collection or network of internationally recognized and emerging contemporary artists.

Conceptual mockups and renderings will be prepared to illustrate how each artwork would appear within the proposed locations. These visualizations will support collaborative discussions with Village staff and stakeholders to determine which artworks best align with the character of the space, the goals of the project, and the interests of the community.

This process allows the Village to review thoughtfully curated options while ensuring that the selected artworks complement the environment and contribute to a vibrant and welcoming public space.

II. Artist Identification and Artwork Selection

Following the review of curated artwork options and site mockups, SM will work with Village staff to finalize the selection of sculptures. SM agrees to duly consider any artists that are referred to it by the Village.

SM will confirm artist availability and coordinate all necessary agreements related to acquisition or commissioning of the selected sculptures. At this stage, final technical details, including materials, dimensions, structural considerations, and installation requirements, will be reviewed to ensure compatibility with the prepared foundations and site conditions and prepared foundations.

- SM will also prepare final documentation and renderings for Village approval prior to moving forward with fabrication, procurement, or transportation planning. SM will ensure that that the sculptures will be suitable for the safe and secure placement on the pre-constructed pedestals provided by the Village at Linda Kunze Plaza and the Downtown Flexible Amenity Area locations.

III. Concept Development and Approval

Once artworks are approved, SM will coordinate the procurement of existing sculptures or oversee the fabrication of newly commissioned works, depending on the final selections. SM will manage artist coordination, contracts, schedules, and technical documentation to ensure the artworks are produced according to approved designs and project timelines.

Throughout this process, SM will maintain regular communication with Village staff to ensure that fabrication or procurement remains aligned with budget, schedule, and installation requirements.

SCULPTURE

IV. Fabrication or Procurement

SM oversees all fabrication and procurement processes, coordinating closely with artists, fabricators, and technical partners to maintain quality control and project timelines. SM shall secure for the Village appropriate documentation from the artists, fabricators and technical partners, as the case may be, evidencing that the ownership to the copyright for any work commissioned by the Village through SM shall vest in the Village as a work made for hire. For existing works that are acquired, and not specifically commissioned on behalf the Village, SM shall secure from the artist, fabricators and technical partners, as the case may be, appropriate authorization for the Village to use, display and/or destroy the sculptures, including but not limited to the execution of a waiver of any rights created or recognized by the Visual Artists Rights Act of 1990 (17 U.S.C. §106A), in a form acceptable to the Village. The Village shall retain sole and exclusive authority with respect to the use, display, conveyance, or destruction of any sculptures procured pursuant to this agreement.

V. Logistics, Transportation, and Installation

SM will manage all logistics associated with transportation and installation.

Amy Kaczmarek will coordinate with professional art handlers, fabricators, and installation vendors to ensure safe transport and proper installation of each sculpture. This includes scheduling deliveries, coordinating equipment and rigging, and working with contractors to securely install artworks on Village-prepared foundations.

SM's extensive experience managing complex installations in public environments ensures all works are installed safely, efficiently, and according to best practices for outdoor sculpture.

VI. Project Oversight and Coordination

John Riepenhoff will provide overall leadership and oversight to ensure alignment with Village goals, timeline, and budget.

SM serves as the primary coordinator between artists, vendors, fabricators, and Village representatives, ensuring clear communication and efficient decision-making. Regular updates maintain transparency and smooth progress from concept approval through installation.

VII. Community Engagement and Programming

Community engagement is a core component of Sculpture Milwaukee's public art model.

Programming will include:

- Artist talks for each installed sculpture (if desired by the Village)
- Public unveiling celebration events for each sculpture (if desired by the Village)
- Development and training of docents to lead guided walking tours (if desired by the Village)

These programs connect residents and visitors with the artworks and the artists behind them, making contemporary public art accessible and meaningful to broad audiences. Community programming will be led by Ellen Kullerstrand, Director of Marketing & Community Engagement, who designs programming that connects residents and visitors with the artworks and the artists behind them.

VIII. Marketing, Communications, and Public Launch

SCULPTURE

If desired by the Village, SM will collaborate with the Village on coordinated marketing and communications efforts, which may include press outreach, digital storytelling, social media promotion, and interpretive materials that provide context for the sculptures.

Public unveiling events will celebrate project completion and introduce the artworks as new civic landmarks that contribute to the vibrancy and cultural identity of downtown Downers Grove.

Project Timeline

The project timeline is structured to ensure a thoughtful, efficient, and well-coordinated delivery of a high-quality public art initiative for the Village. Work is organized into five overlapping phases that move the project from concept development through installation, public activation, and ongoing stewardship.

Phase 1: Artwork Selection & Design Development (June–July 2026) focuses on site exploration, feasibility review, and curatorial planning. During this phase, SM will work with Village staff to evaluate potential locations, identify suitable artworks, establish budgets and schedules, and coordinate early planning with project partners.

Phase 2: Site Finalization, Logistics & Engineering (August 2026–February 2027) advances the project into technical planning and implementation readiness. Final artwork selections and site locations will be confirmed, engineering reviews will be completed, artist agreements finalized, fabrication vendors secured, and installation and maintenance documentation assembled. Insurance requirements will also be completed during this phase.

Phase 3: Fabrication & Installation (February–May 2027) includes installation scheduling, wayfinding design and production, and on-site installation of the artworks. Signage and interpretive materials will be installed concurrently, and professional photography will document the completed installations for public communications and archival purposes.

Phase 4: Community Programming & Activation (August 2026–June 2027) runs concurrently with project development to ensure strong public engagement. This phase includes advance planning and delivery of public programs associated with the installations, including artist talks, unveiling celebrations, and community activation events. Programming is timed to align with installation milestones and maximize public participation.

Phase 5: Documentation & Maintenance (June–December 2027) supports the long-term success of the installations through ongoing maintenance, condition monitoring, seasonal cleanings, and continued documentation and marketing photography.

This phased approach ensures the installation of one (1) sculpture in Linda Kunze Plaza and three (3) additional sculptures in other preferred project locations is delivered efficiently while maintaining flexibility to align with the Village's priorities, site readiness, and community engagement goals. A detailed project schedule is provided in the attached timeline document.

Project Budget & Financial Overview

The proposed project budget reflects the full scope of services required to successfully deliver a high-quality public art initiative for the Village. The budget supports the installation of one signature

SCULPTURE

sculpture in Linda Kunze Plaza and up to three additional sculptures in other preferred project locations, with final quantities and allocations aligned to the Village's priorities and site conditions.

Final project costs will be shaped by several key factors, including the Village's goals for community engagement, the scale and complexity of selected artworks, and whether sculptures are newly commissioned and fabricated or acquired as existing works. Larger-scale or newly fabricated works require expanded engineering, materials, and production coordination, while acquisition of existing works may reduce fabrication timelines but still require transportation, installation, and site preparation.

Budget categories include curatorial leadership, project management, artist design fees, fabrication or acquisition, engineering review, permitting, insurance, transportation, installation, and maintenance to ensure artworks are delivered safely, professionally, and in alignment with public space standards.

The budget also supports robust community engagement and cultural programming. Programming funds cover three artist talks, three public unveiling celebrations, and development and training of volunteer docents to support guided walking tours, should the Village wish to offer them. These activities ensure the artworks are not only installed but actively interpreted, celebrated, and integrated into community life.

Marketing, communications, and wayfinding investments ensure the installations are visible, accessible, and promoted as civic assets that contribute to the vibrancy of downtown.

A contingency allocation is included to responsibly manage variables common to public art projects, including site conditions, engineering requirements, and installation logistics.

Overall, the budget is structured to provide flexibility while ensuring the Village receives a cohesive, professionally managed public art program that delivers both immediate visual impact and long-term cultural value. The amounts budgeted in each Expense Category of the Project Budget have been provided as estimates only. SM and the Village shall agree upon a final allocation of funds into each Budget Category prior to the commencement of the project. Notwithstanding the foregoing, the Project Budget shall not exceed four hundred thousand dollars (\$400,000) unless otherwise agreed to by the Village and SM in writing.

Conclusion

Through thoughtful curation, experienced project management, strong community partnership, and a commitment to local economic impact, Sculpture Milwaukee will deliver a successful public art initiative that enhances the public realm and creates lasting cultural value for the Village of Downers Grove.

Our experience producing large-scale public art exhibitions demonstrates our ability to manage complex installations while ensuring artworks remain accessible, meaningful, and inspiring to the public.

SCULPTURE

Dear Supporter,

Sculpture Milwaukee's is a world class outdoor exhibition of renowned sculptures transforming downtown Milwaukee's cultural and architectural landscape. Our interactive programming format serves as a catalyst for supporting artists, making art accessible to a wide audience, and building connections between creative and influential figures in our community.

The past year and a half as Executive Director have demonstrated to me Sculpture Milwaukee's strengths and opportunities, and I'm more excited now than ever to usher our organization into its next phase of growth. This chapter will be defined by collaboration as we engineer more tools to support artists, reinforce the efforts of our institutional art peers in Milwaukee and the State, and grow our role as a resource for the private and public sector cultural investments.

I've also learned that Sculpture Milwaukee is only as strong as the individuals participating in and investing in our work, and we so appreciate your ongoing support of our program! This presentation is a look back at 2024's lessons and accomplishments, with an eye towards our goals for success in 2025 and beyond.

Sincerely,

John Riepenhoff, Executive Director

OUR PRIORITIES

Since 2017, Sculpture Milwaukee has dramatically grown our presence in the region, making our organization a leader in the arts, and experts when it comes to activating public space. What we have innovated as a community is truly unique domestically, and recognized as a model internationally. Together, we are certain to make marked progress on our priorities for 2025 and beyond.

1 Enrich Milwaukee’s downtown, center the arts as a local driver of commerce and quality of life.

2 Collaborate and strategize with local and regional leaders to better understand and utilize public art.

3 Center and celebrate Arts & Culture in our civic life, provide access to art for diverse audiences.

4 Raise the bar for what is experienced and expected of public art through engaging programs, publications, and more.

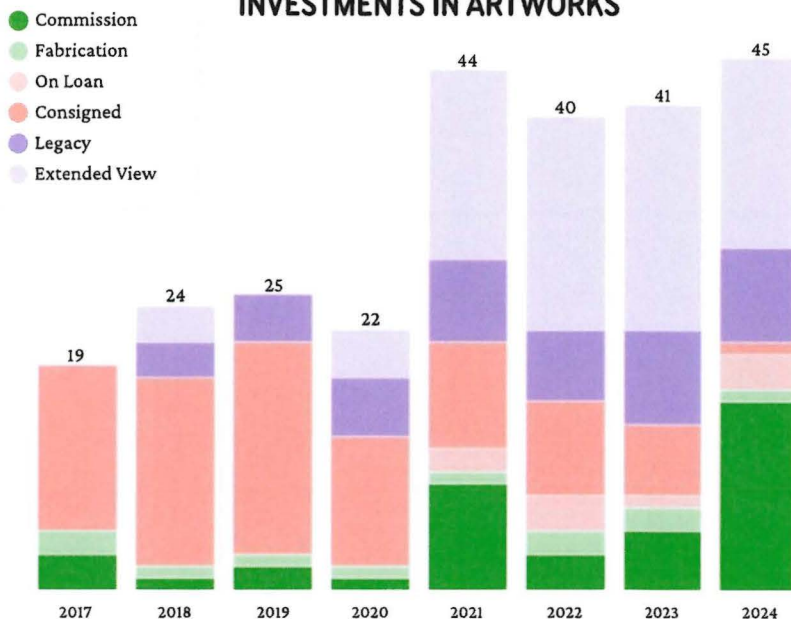

SCULPTURE

ON VIEW

This year was a record year for us as we commissioned over 80% of the new sculptures that were installed, +30% YOY. Many of them were fabricated using Wisconsin's skilled industries: metal workers, powder coaters, concrete and glass companies, from Fox Valley to Pewaukee and between. We also showed more pieces this year in public space in Milwaukee than any other year prior.

INVESTMENTS IN ARTWORKS

2024 marked Sculpture Milwaukee's 7th annual exhibition season. We showcased 21 artworks in 2024, presenting a total of 45 pieces by local, national, and international artists across six neighborhoods.

NEW IN 2024

VISUAL IDENTITY

In 2024 Sculpture Milwaukee's team collaboratively embarked on a project to update our brand identity. The design process was led by artist Nat Pyper, and the finalized branding was implemented in every aspect of our public presence by in-house Creative Director, artist Michael Lagerman.

Our fresh visual identity more effectively communicates our organization's narrative, and reflects our current stage of growth under new leadership and expanded staff. The openness of this identity will be instrumental as we continue to grow, strategize, and connect our communities with world-class contemporary art.

Occasionally the logo is joined by a heap of eyes. Illustrating the act of viewing, creative alertness, collective spectatorship, and the sculptural forms that viewers make when look at art together. This brand mascot can be used alone or in conjunction with the logomarks.

RECENT ACHIEVEMENTS

The makeup of our exhibition and programming has evolved under John Riepenhoff's leadership as Executive Director. We are proud to share that by shifting our priorities to commissioning and fabricating works in Wisconsin, Sculpture Milwaukee has been able to decrease our dependence on borrowing older works from out of state and the costly fees associated with the transportation of public sculpture. The logistical savings have enabled Sculpture Milwaukee to allocate more of our budget into local businesses and artists. This shift also has the benefit of positioning Wisconsin as a site of cultural production, attracting artworld prestige and investment from outside organizations.

LONG TERM OPPORTUNITIES

In order to achieve our curatorial and community goals, we manage many relationships and stay attentive to short and long term opportunities. We have begun to plan our annual exhibitions further in advance, while simultaneously keeping an eye out for ad-hoc opportunities to collaborate with other regional institutions and artists.

We have also placed a growing number of our sculptures in permanent locations, where they will be accessible to the public at all times. For these Legacy works, Sculpture Milwaukee acts as a resource to connect and consult on maintenance and the genesis of new art public art installations, connecting our partners to new clients, continuing to provide education, and helping navigate the world of contemporary art with new patrons.

Sculpture Milwaukee continues to find ways to optimize the value of our investments, including making provisions for our public artworks to be on display for longer periods of time. The first several years of Sculpture Milwaukee exhibitions were installed for an average of six months. Today the typical amount of time a temporary piece will be on the street is eighteen months. In addition to lowering our total monthly costs, this change has made our show viewable 24/7, 365 days a year.
